

OSG RPM release of the Virtual Data Toolkit

- OSG is releasing the VDT as RPMs from now on.
- First release of VOMS, glexec, Xrootd as well as RPMs for LIGO (Scientific Linux 6, Debian) finished in Oct 2011.
- Testing of CE, SE currently being done.
- Full release for end of 2011.
- User documentation being updated in parallel.
- Sets stage for keeping up with new versions more judiciously.
