COVID information

As of today, the use of mask is only compulsory inside health centres, drugstores, public transportation, and residences for the elderly. Nevertheless, its use is recommended if an interpersonal distance 1.5 m cannot be held. If you get a positive official test (not a self test), you must isolate for 7 days since the moment of the test (inside a hotel room is fully valid) **but only** if you are in a risk situation by your physical condition or if you have symptoms, then the use of mask is compulsory for you at any time. After that period you are considered cured if at least 3 days have passed from the last symptoms, without need of any further test. Close contacts need not isolate if they are fully vaccinated.

Information about COVID requirements when coming to Spain can be found [here](#) and [here](#). Useful information can also be found [here](#).
