T3-2 Plasma Physics Symposium III (DPP) | Symposium de physique des plasmas III (DPP) - MDCL 1010 (13:15 - 14:45)

-Conveners: Stephan Reuter; Ahmad Hamdan

time	[id] title	presenter
13:15	[3449] (I) Advances in Laser Induced Breakdown Spectroscopy Assisted with Laser Induced Fluorescence	Dr SABSABI, Mohamad
13:45	[3402] (G*) Production of emulsion by discharges at the interface of two immiscible liquids	DORVAL, Audren
14:00	[3122] (G*) Combined High-Voltage Pulse and Radiofrequency Excitation for Large-Volume High-Pressure Non-Thermal Plasma Generation	FILICE, Dante
14:15	[3041] (G*) Streamer Propagation at Water Surface: Influence of Gap Distance and Quantification of Injected Charge.	Mr HERRMANN, Antoine
14:30	[3389] (G*) Plasma activated water treatment in hydroponic culture: from seedling to mature growth	WATSON, Sean
