

Session Program

7-9 Dec 2010

**LHC Beam Operation Workshop - Evian 7-9
December 2010**

Session 6: Luminosity performance

Hilton, Evian

Thursday 9 December

09:00

Session 6: Luminosity performance

Session | Location: Hilton, Evian

09:00–09:20 **Longitudinal and transverse emittance preservation**

Speaker

V. Kain

09:20–09:40 **LHC Beam-Beam**

Speaker

W. Herr

09:40–10:00 **Strategy for luminosity optimisation**

Speaker

S. White

10:00–10:20 **The LHC optics in practice**

Speaker

R. Tomas

10:20–10:40 **Hump: how did it impact the luminosity performance?**

Speaker

G. Arduini

10:40–11:00 **LHC Beam parameters: pushing the envelope?**

Speaker

E. Metral

11:00
