All plenary and parallel sessions to offer remote connection. Public lecture TBD					

Extra session for  
UK scientists

At university

At conference centre  
(difficult to get Plenary rooms at  
University in term)

At university

# Questions from the LOC

- Do posters need to be up for full workshop, or is Monday evening + Tuesday during the day enough
- Should all sessions be open to remote participation and do we charge for remote participation?
- How many people do we realistically expect?
- Upper limit on fees for in-person participation?
- Should lunches and conference dinner be charged for as part of the fee, or separately (including meals would make the conference run more smoothly & including excursion in the fee would encourage participation)
