Notes, to be discussed.

IPAC might include members from more countries
(esp: Russia, India, Japan, China)

also could think of more top level members:

CERN directors (Gianotti, Mnich, Lamont?)

Fermilab (Lockyer),

KEK director (Tukushuku or deputy)

DESY: Behnke

Somebody(ies) from ILC: Nakada, Peskin, Vallée

Suggestions from FCC global

- someone from SLAC, e.g. JoAnne Hewett
- someone from Russia, e.g. Ivan (Vanya) Belyaev
- Dave Newbold, insofar as he's chairing the ECFA accelerators study

other possibilities

Shoji Asai (UniTokyo FCC CB rep, FCC-hh, ILC-japan spokesperson)

Elisabetta Gallo from DESY suggested by Beate Heinemann as replacement
