Compute Accelerator Forum Introduction

2022-06-08

Ben, Graeme, Maria, Michael, Stefan

Compute Accelerator Forum - 8 June

- Welcome to today's Compute Accelerator Forum meeting
- We have two talks today
  - Update on CERN's GPU facilities, Ricardo Rocha (CERN)
  - An Introduction to using SYCL with Nvidia GPUs and beyond, Joe Todd (Codeplay)
- Our next meeting will be on Simulation: Particle Tracking on GPUs
  - 29 June, https://indico.cern.ch/event/1160438/
  - Talks from the AdePT and Celeritas projects are confirmed
- After that we will have our summer break and resume in September
- As ever **if you would like to present or to propose a topic, please get in touch**
