

# ISOLDE Workshop and Users meeting 2021

## Thursday, 16 December 2021

### Applications I (09:00 - 10:30)

-Conveners: Katharina Lorenz

time	[id] title	presenter
09:00	[14] identifying point defects in technologically important semiconductors	HALSALL, Matthew
09:30	[7] Radiotracer studies of diffusion in multi-principal element alloys	DIVINSKI, Sergiy
10:00	[35] IS668 EC-SLI: First results on lattice location of implanted <sup>27</sup> Mg, <sup>45</sup> Ca and <sup>89</sup> Sr in diamond	WAHL, Ulrich
10:15	[43] Emission channeling and ab initio calculations for the study of Ca color centers in diamond	DE MATOS LAMELAS, Afonso Xavier
