## Nextcloud - State of the nation

*Monday 24 January 2022 13:30 (30 minutes)*

This talk will give an overview of the big improvements that happened in Nextcloud in the last year. In the last 12 month Nextcloud Hub 21, 22 and 23 were made available. During this time a lot of significant improvements in functionality, performance, scalability and security were released. This talk will give an overview together with some real world example how the new capabilities can be used.
