

Open Cloud Mesh Test Suite 2022

OCM Interoperability
Workshop
-
CS3 2022

24 January 2022

Share-with flow

Public-link flow

Invite flow

Goals of the Test Suite

- To test the behaviour of OCM providers and consumers
- Against a stub and against each other
- Against production and in the lab (i.e. on localhost)
- In theory: as prescribed by the spec
- In practice: both share-with flow and public-link flow

Run in Docker

Continuous Integration

Fixing Reva

Should
Provider Discovery
be required?

Should
Notifications
be tested?
