## **ScienceMesh: An Interoperable Federation of EFSS services for European Open Science Cloud**

*Tuesday, 25 January 2022 10:20 (20 minutes)*

ScienceMesh ([sciencemesh.io](https://sciencemesh.io)) is an interoperable research platform developed for the European Open Science Cloud by the [cs3mesh4eosc.eu](https://cs3mesh4eosc.eu) project.

ScienceMesh enables seamless sharing and collaboration on data between sites running different EFSS platforms (Owncloud, Seafile and Nextcloud).

In this presentation we will give a summary of the status of the integration with EFSS platforms and outlook for 2022.

**Primary authors:** MOSCICKI, Jakub (CERN); FERREIRA, Pedro (CERN)

**Presenter:** FERREIRA, Pedro (CERN)

**Session Classification:** Federated Infrastructures & Clouds

**Track Classification:** Main session: Future research with European Open Science Cloud
