

Powering tests (20' + 10')

Focus on changes with an impact on Run3 operation:

- energy extraction removal for RSS (skew sextupole),
- reduced pre-cycle current,
- circuits non-conformities new and resolved in LS2,
- 11 T and trimming strategies,
- global protection mechanism,
- FGCLite and RadTol converters in RRs

Presenters: APOLLONIO, Andrea (CERN); SOLFAROLI CAMILLOCCI, Matteo (CERN)

Session Classification: Session 5
