

Survival kit for CERN's organic webscape: **Kubernetes** and a **community** of Makers

Konstantinos SAMARAS-TSAKIRIS
Catharine NOBLE, Francisco BARROS, Rajula VINEET

not anymore

**Tier-0
(CERN and Hungary):
data recording,
reconstruction and
distribution**

**Tier-1: permanent
storage, re-processing,
analysis**

**Tier-2: Simulation,
end-user analysis**

1 PB/s of data generated by the detectors
Up to **60 PB/year** of stored data

Large experiments have *managed* data sets of **>200 PB**

A distributed computing infrastructure of order of a **million cores** working **24/7**

An average of 60M jobs/month

An continuous data transfer rate of **35-45 GB/s**
(3 PB/day) across the Worldwide LHC Grid (WLCG)

Why so many websites ? So many choices... I have no idea

- Academic freedom
- Autonomous entities
- Plethora of tools

→ as many **websites** as **people**!

Most of them for coders

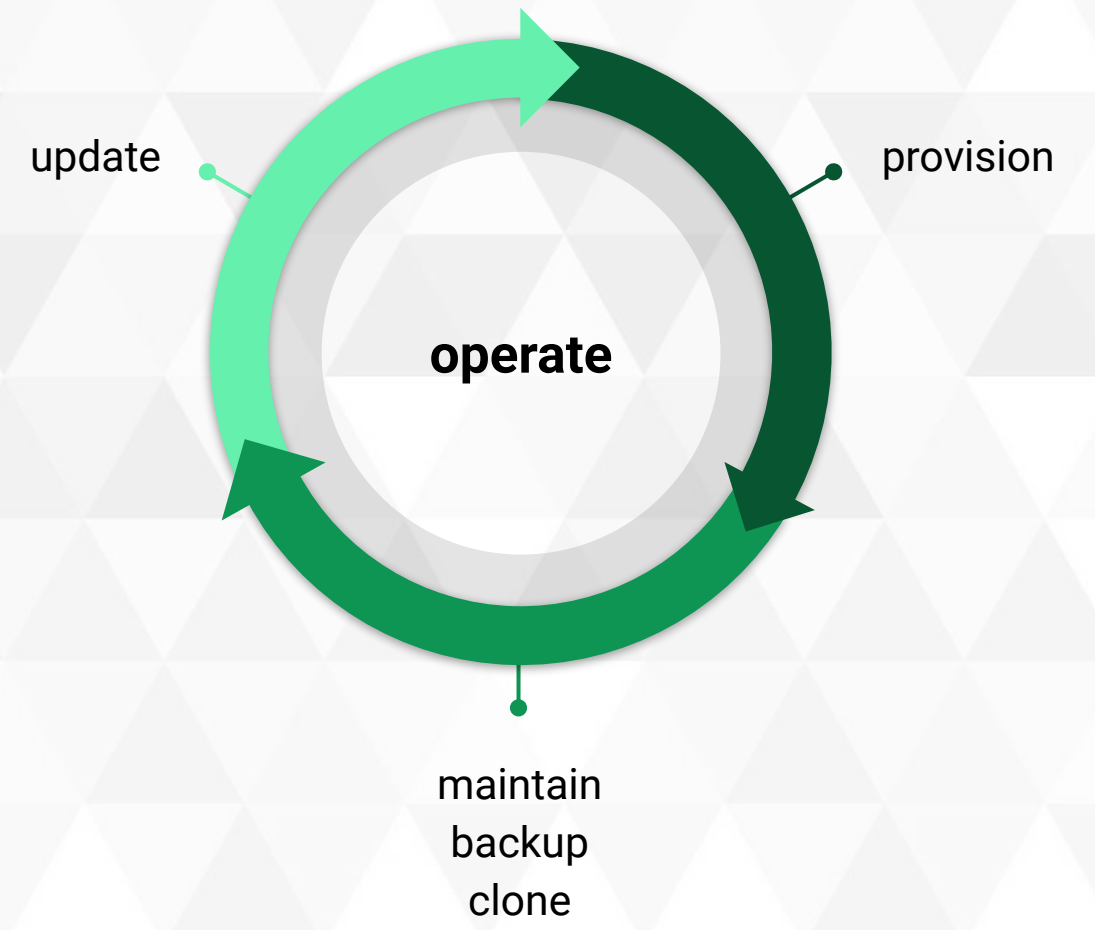

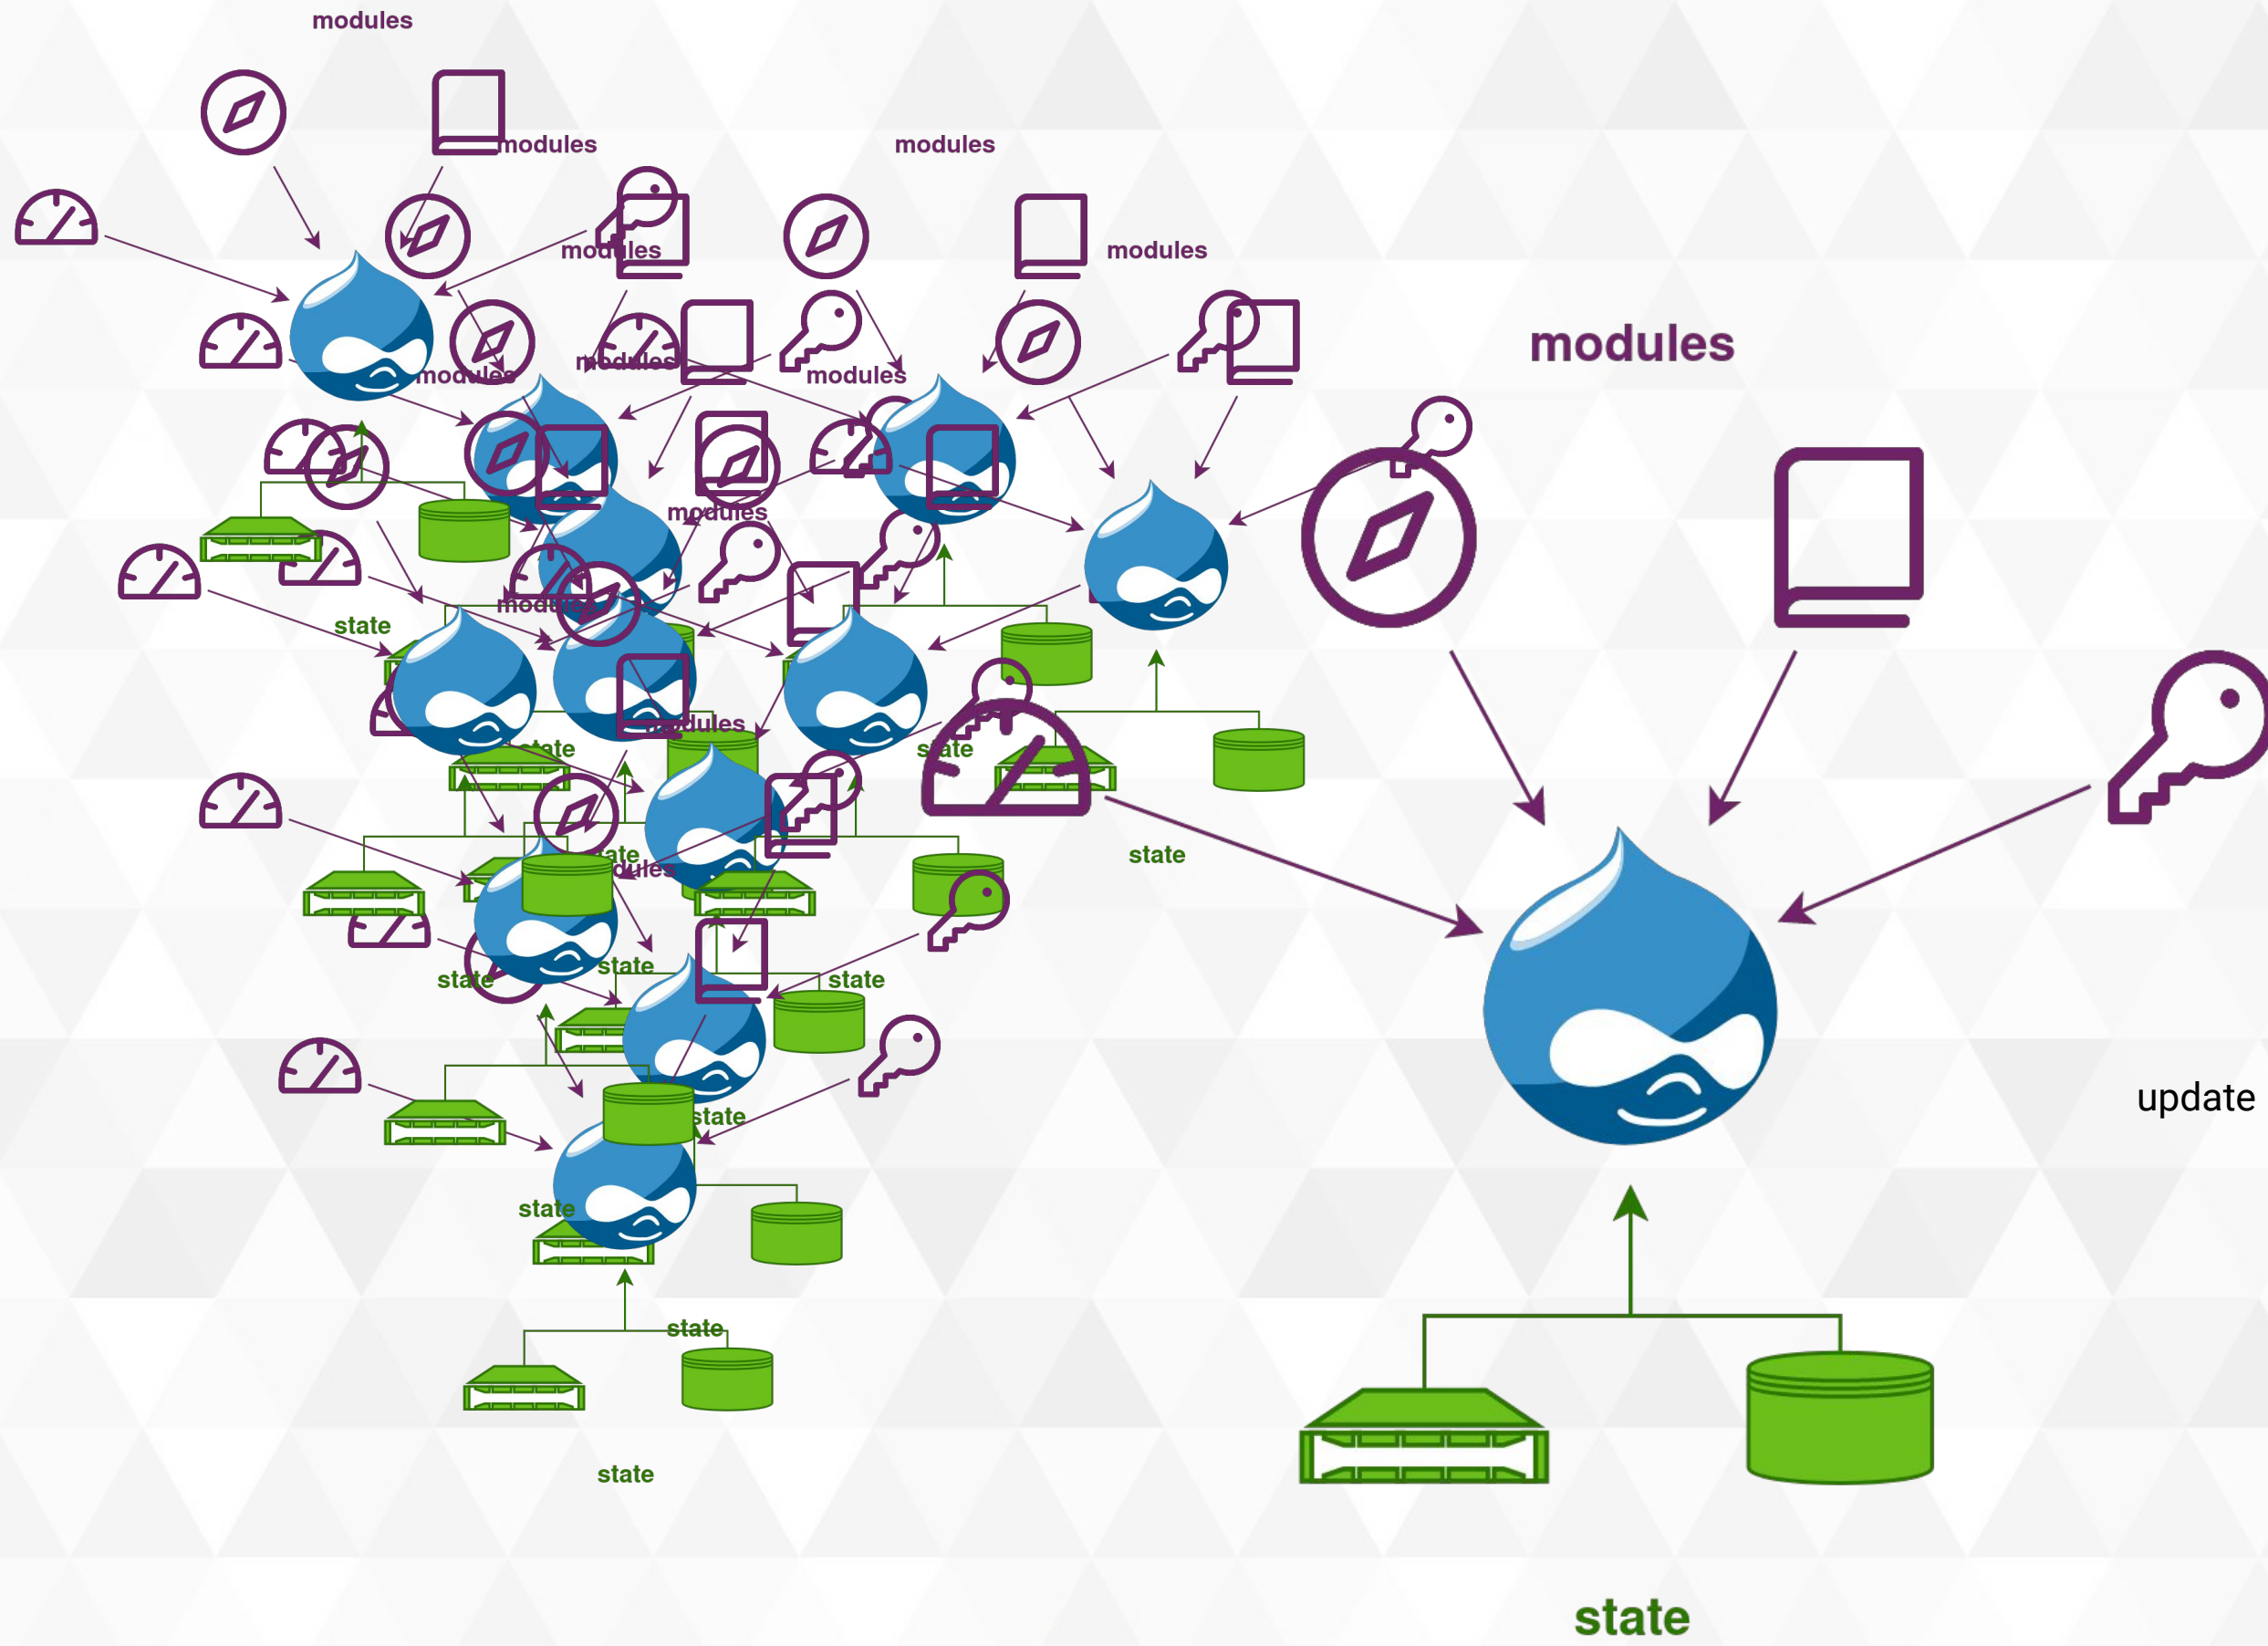

Can I get one?
Please?

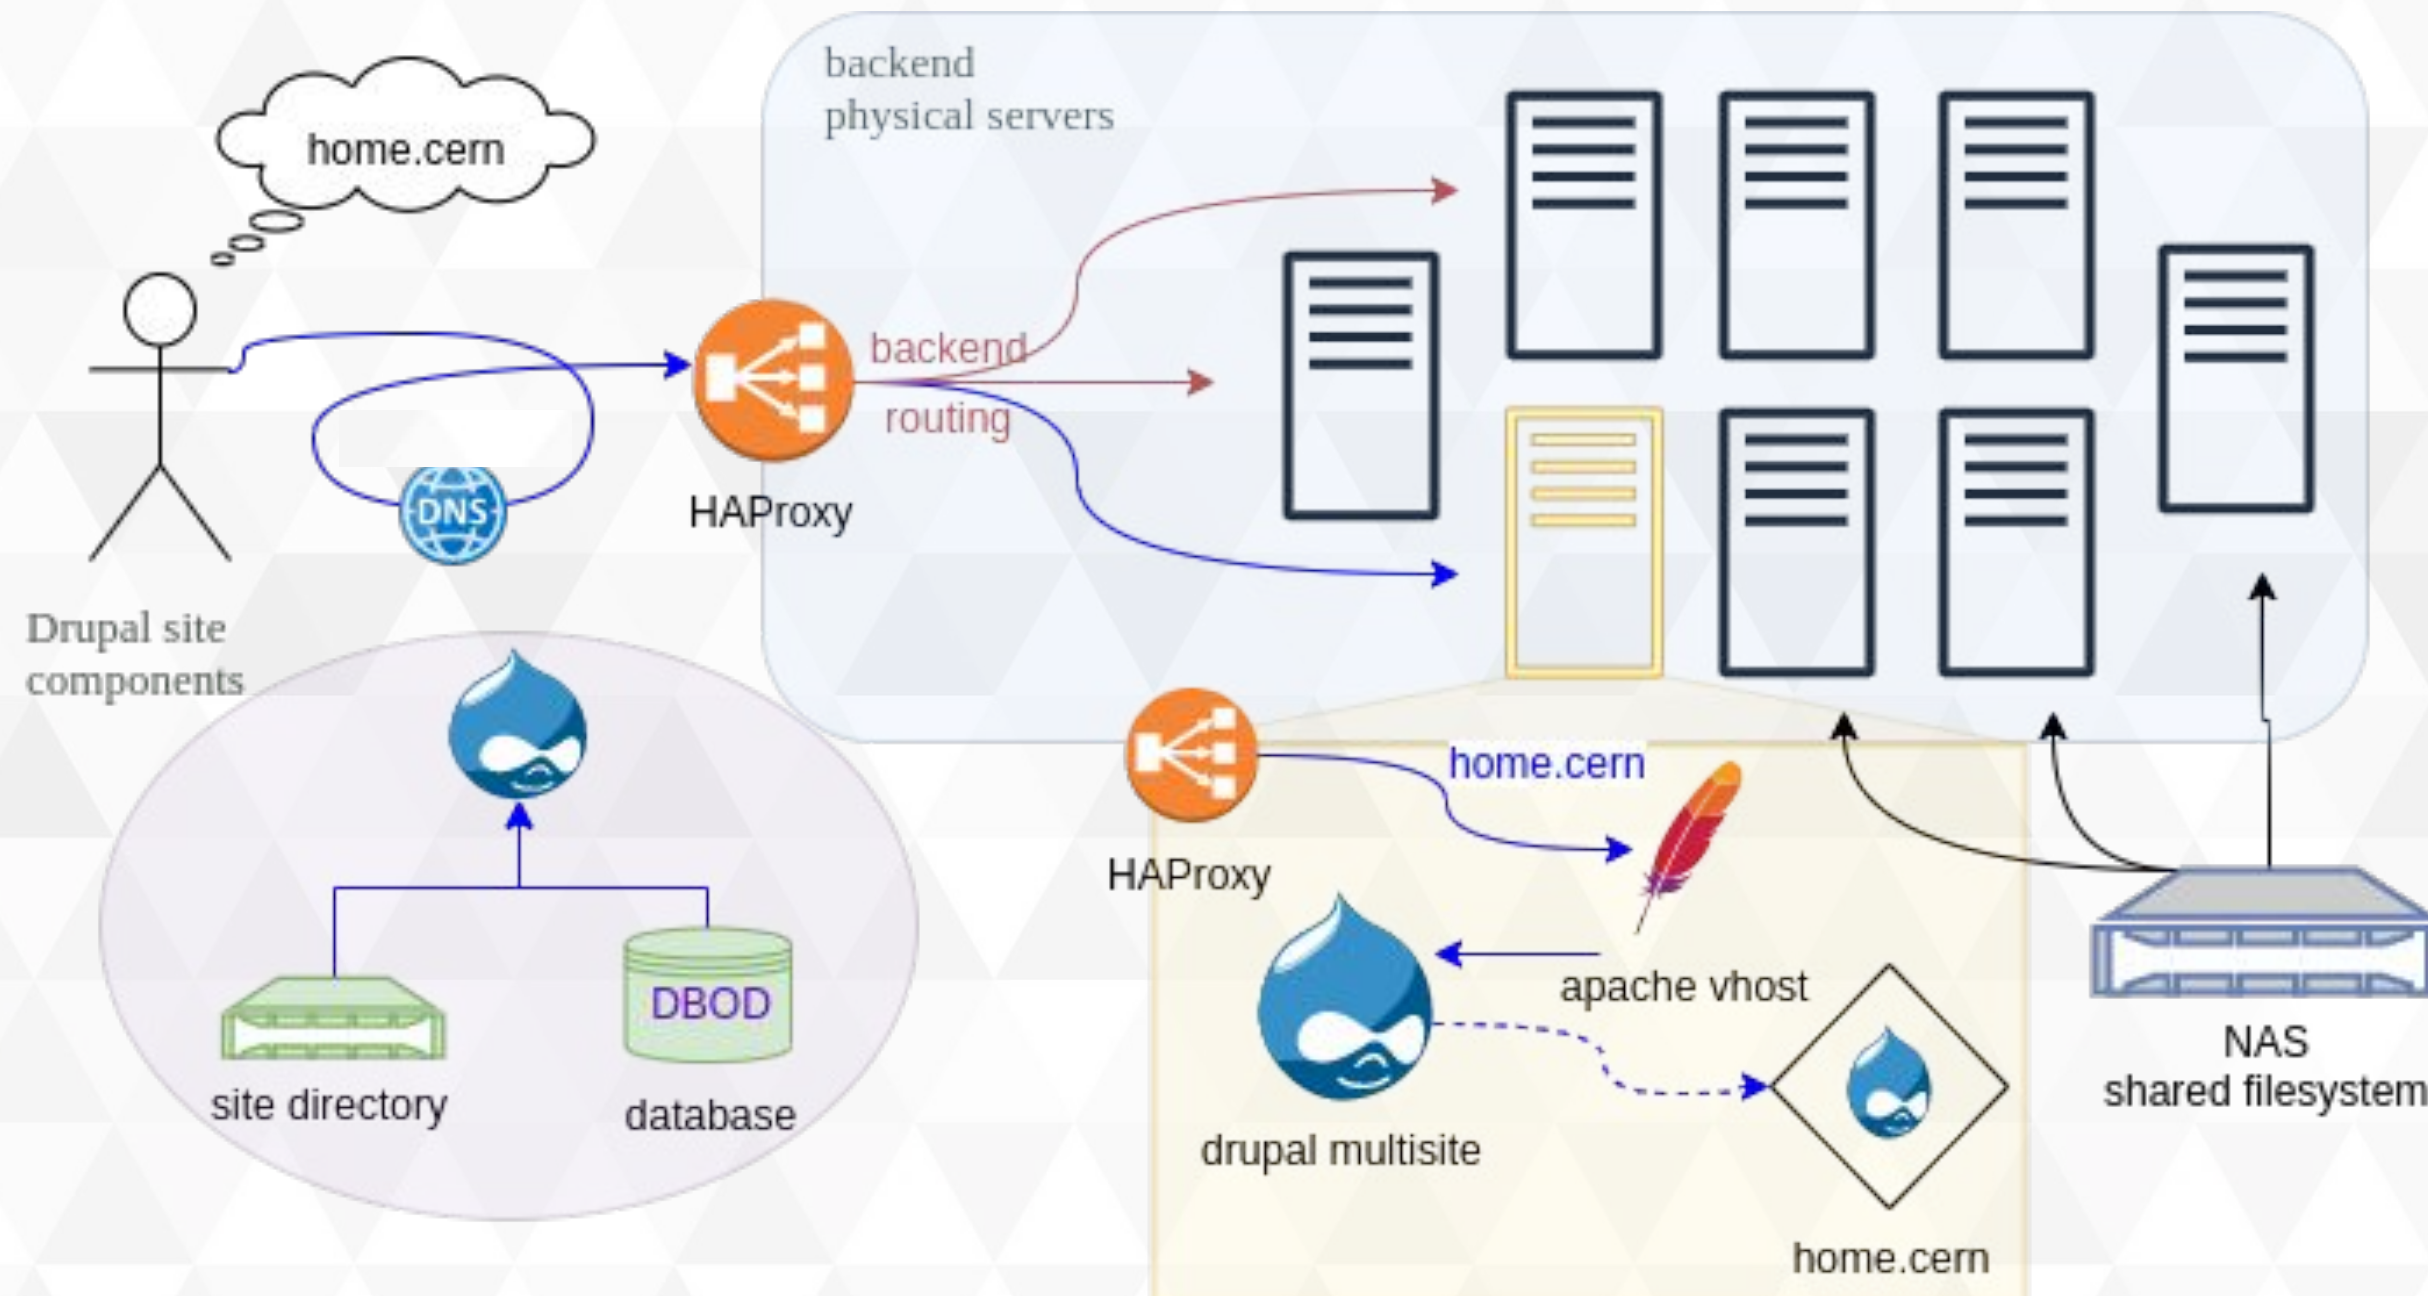

The Setting

Physical infrastructure

Journey of an HTTP request

Shortcomings

- Little isolation: sharing the same PHP-FPM process pool
- Multisite: sharing Drupal core between all websites, little customization
- ad-hoc, mutable, non-standard
- not scalable
- not very robust

Lacks all of the **Cloud Native** benefits

But for many years it was running

Crisis!

Smaller team, tech debt... Drupal 8 🤯

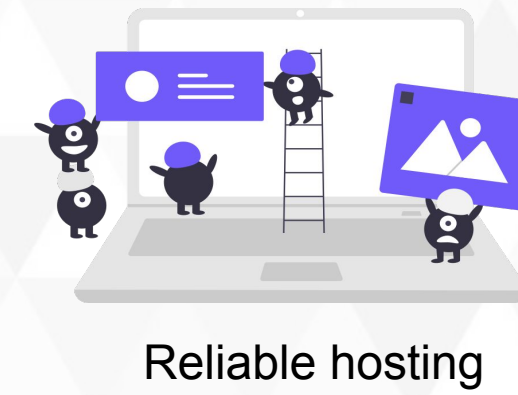

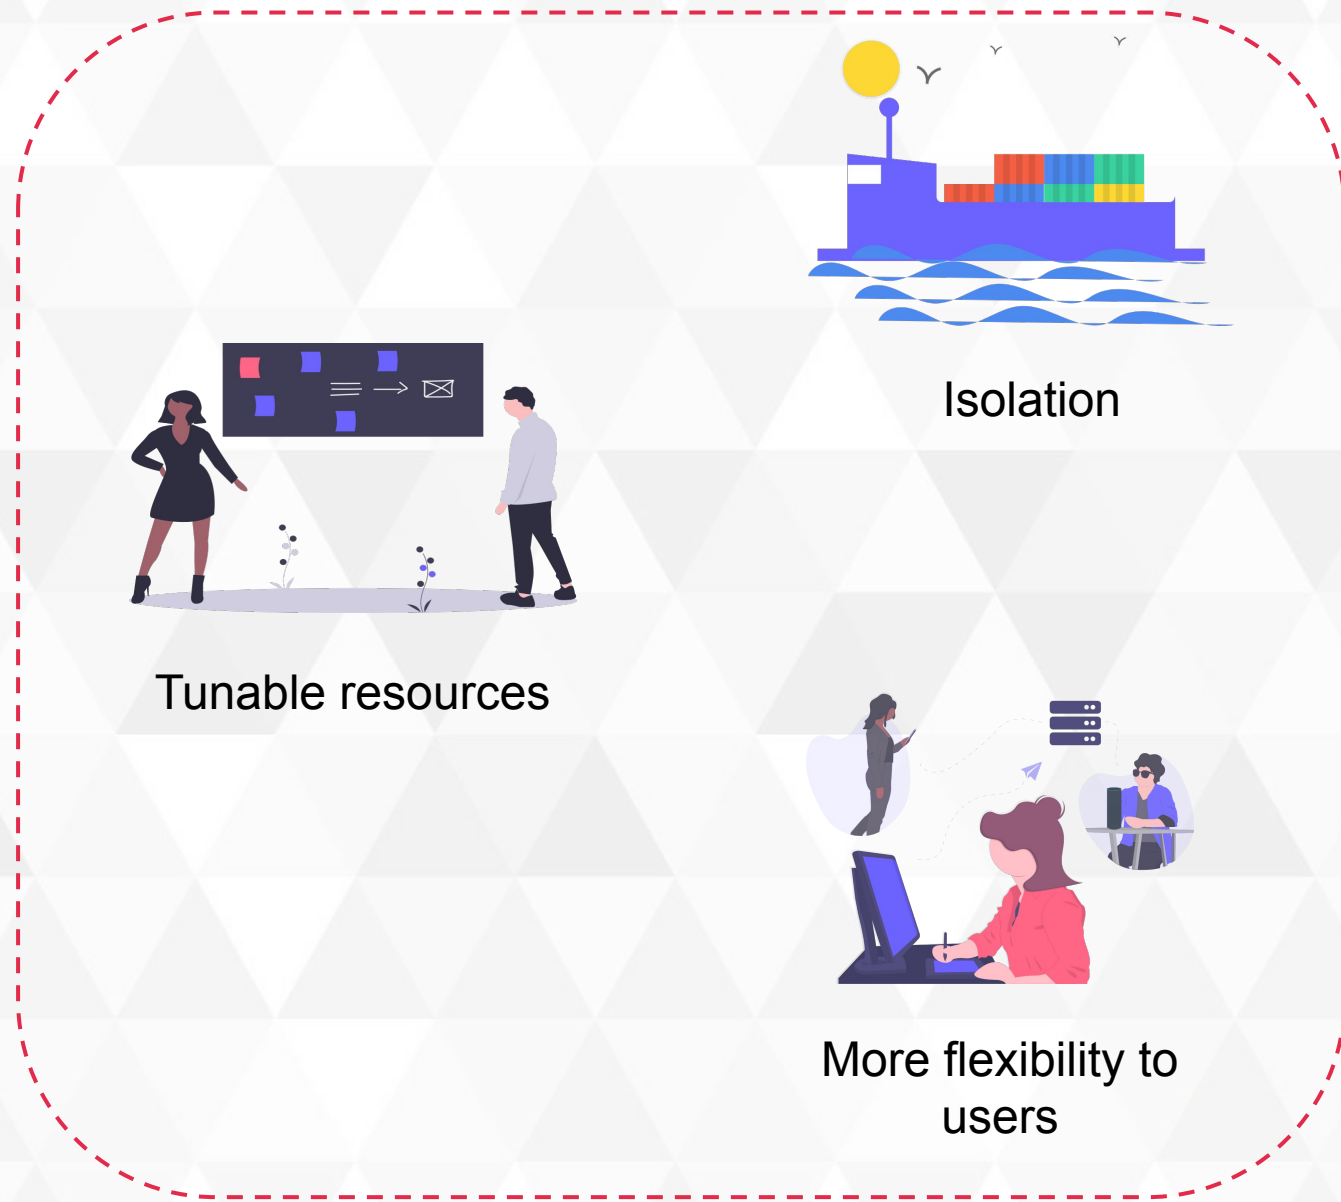

Our actions

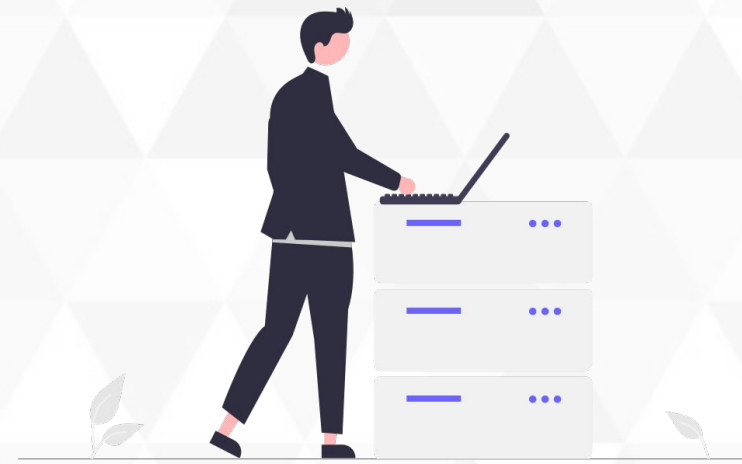

Kubernetes and a community of Makers

Our ideal infrastructure...

Modernization campaign

Shared PaaS
components

Requirements

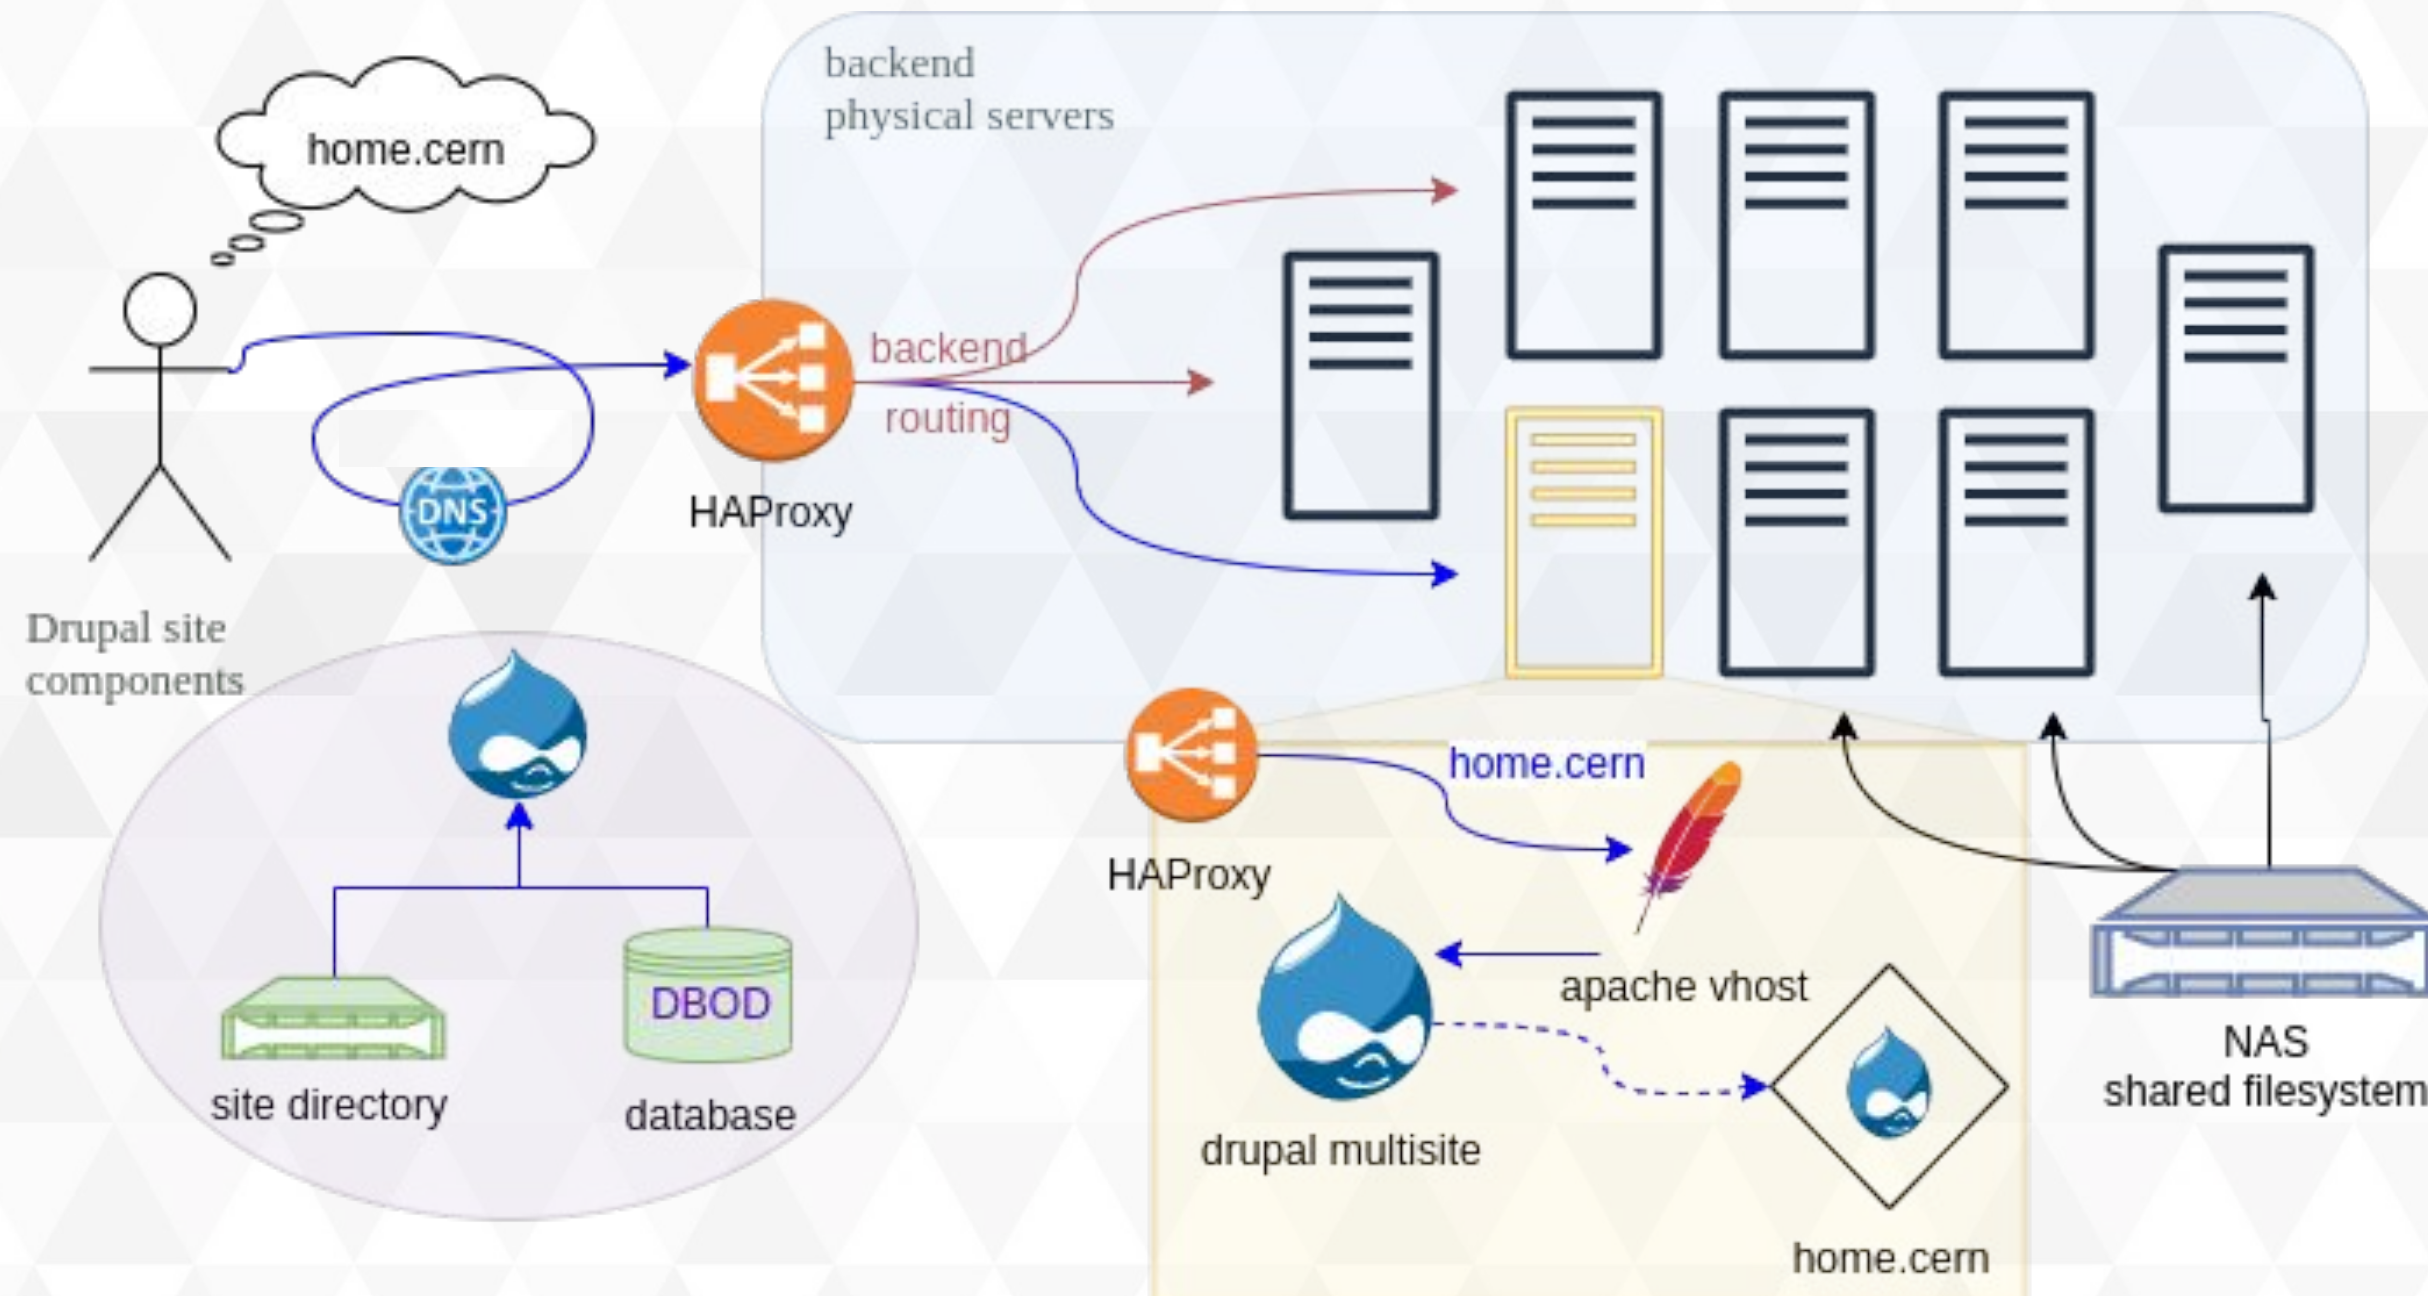

Cloud Native
Drupal Infrastructure

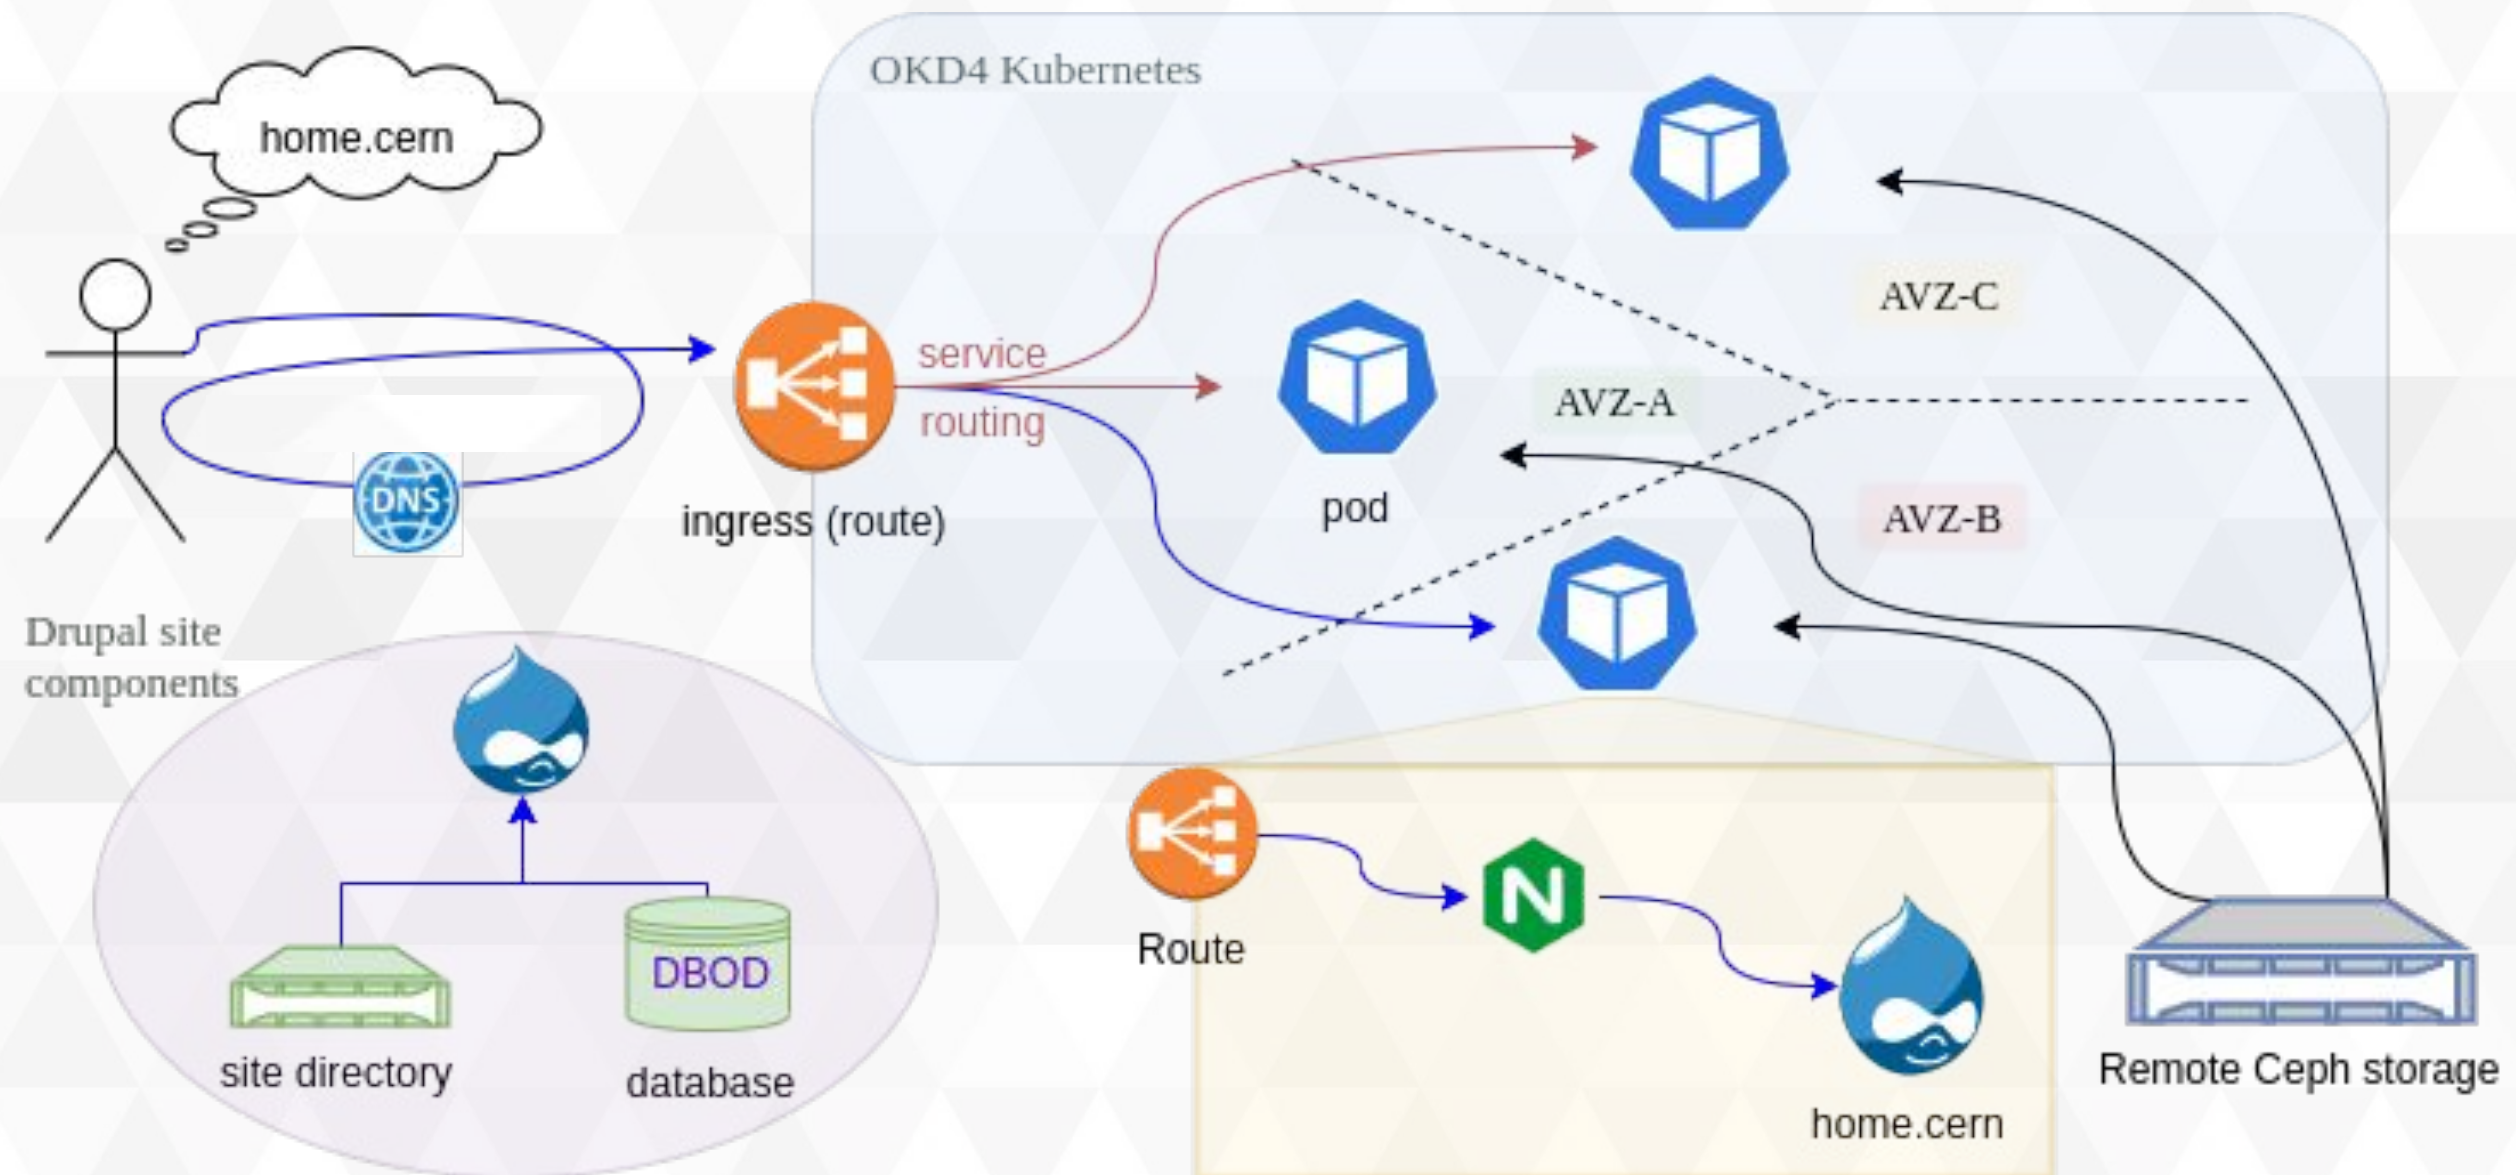

Crew

A Cloud Native facelift

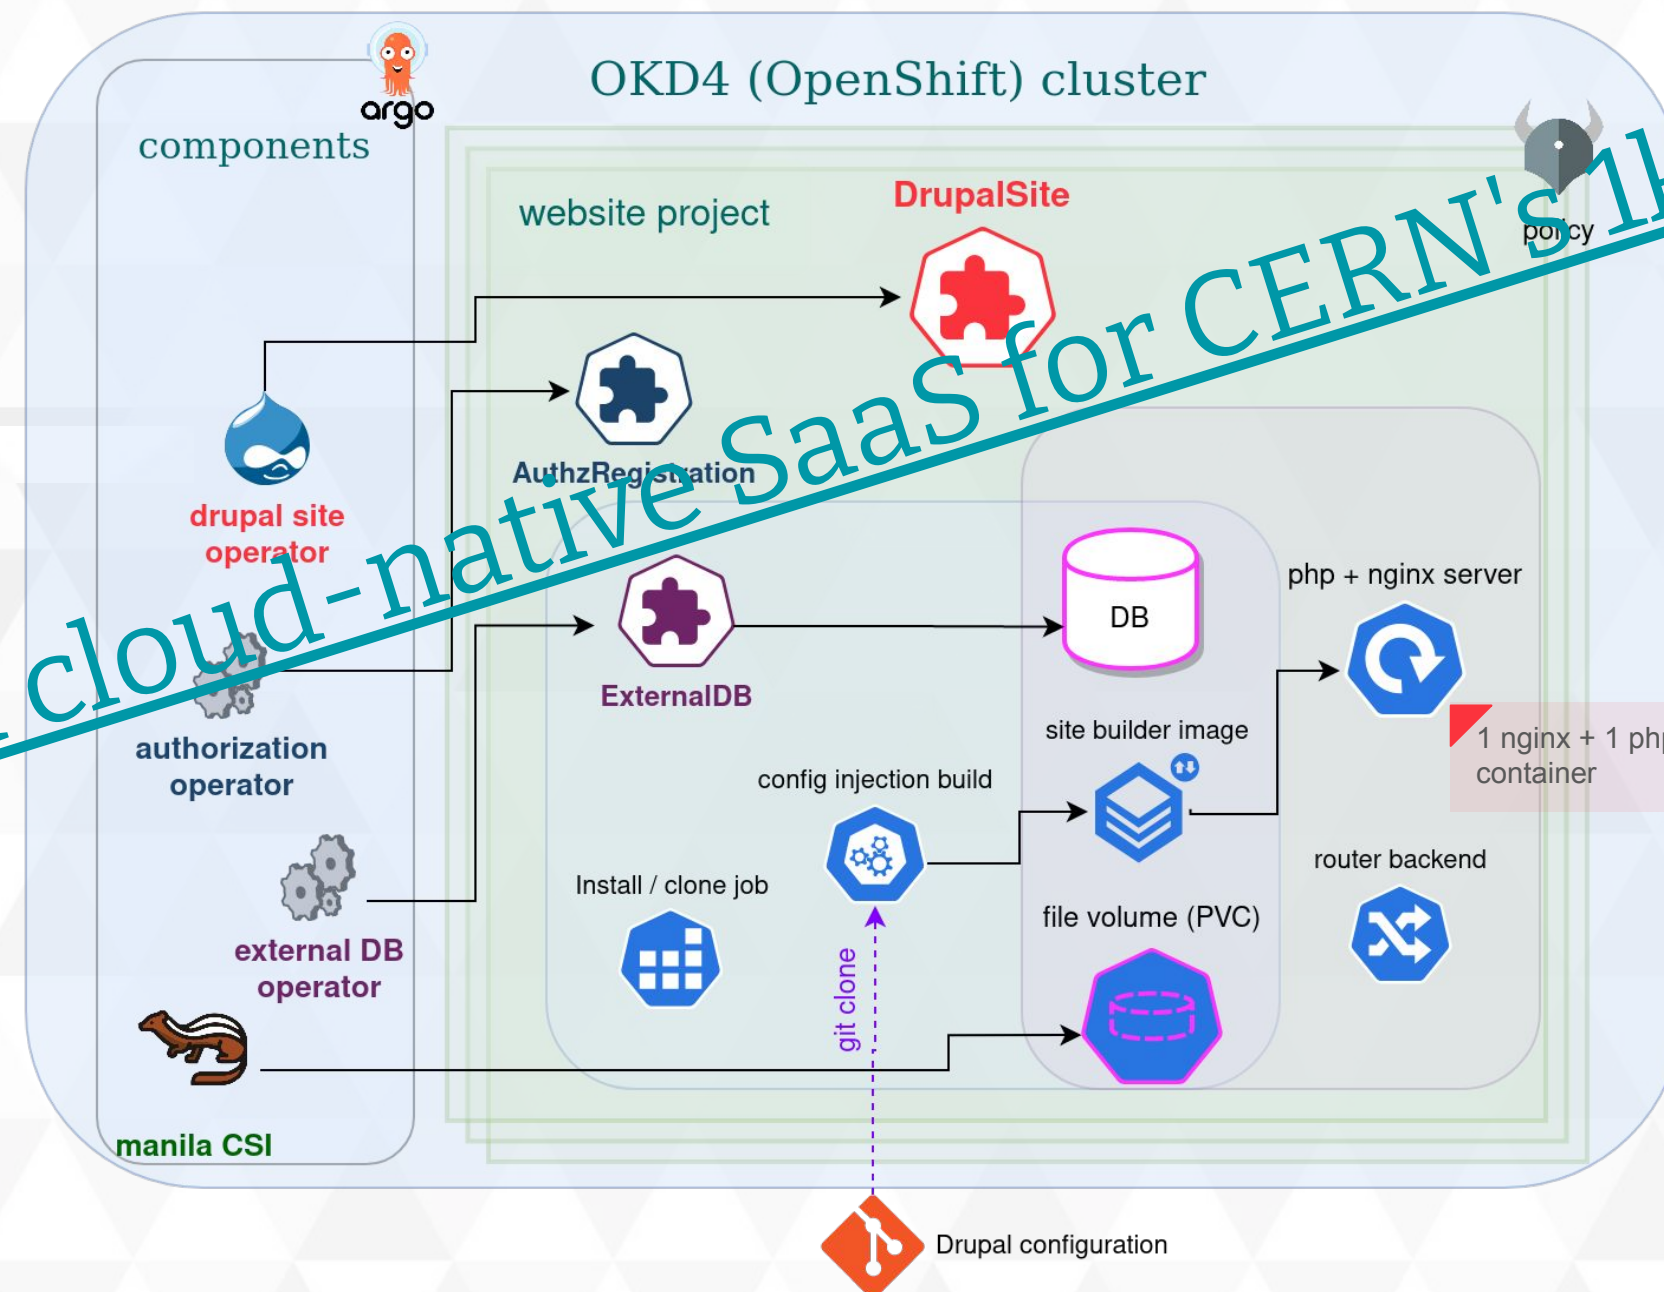

A Cloud Native facelift

A Cloud Native facelift

Building a cloud-native SaaS for CERN's 1k Drupal sites

Check out our Kubecon presentation for more details:
<https://youtu.be/4O-pcSQR8Vw>

Community from a chore

We can only do so much!

Formal support channels overloaded

Knowledge attrition

- As teams grow smaller, expert knowledge gets lost

The stack overflow model works

- few dedicated experts, lots of disseminated know-how

People reach out to each other

- CERN values collaboration

50 instances → more than 40k users

Did I Make Something Wrong Or Should I Add Any Modules?

I Created A Basic Page

It Possible To Export Webform Results? If Yes, How?

I Don't Fancy Creating A New Node Just To Hold A Redirect (especially As I've Been Working On Cleani

I Have An Existing Faq Page To Which I Would Like To Add A Pdf Document At The Top Of The Page.

And Now Would Like To Give Another Person Permission To Edit It.

I See This Error When Users Try To Sign In With An "external" Account, What To Do?

It Seems That The Simplesamlphp Module Isn't Synchronising With The E-groups

I Would Lilke To Delete A Website, But I Need To Keep The Webform Results.

Hello @here, I'm Having Synchronisation Issues With The Atlas Collaboration Page

How Can I Give Editing Permission To A Specific Node To Another Person?

Anyone Know How To Set Up Redirects From A Drupal Node That No Longer Exists?

I Have Set Up Following The Outage. Nothing Was Changed In Terms Of Configuration.

I Would Like To Use The Same Background Graphics For The Cern Qti Website Like The One Used On Home.

There Has To Be A Better Way...

Could You Please Tell Me Where I Could Find It:

I Received This Error Message When I Tried To Change The Website Logo.

CERN Accelerating science Directory

Can't properly create full width backgrounds for the landing page	6	13d
<input checked="" type="checkbox"/> Error after the update	1	17d
Terms not available for basic pages	2	19d
Users can not login with the public service account	1	19d
Background graphics at home.cern <small>drupal</small>	4	28d
How add a video in a news page (not as attached file, but in the body before the text)	3	Aug 25
Save and import on indico feed <small>drupal</small>	5	Aug 19
Change languague switcher block	5	Aug 10
Import EDMS files to Drupal Page automatically	1	Jul 26
Core EntityStorage-Exception SQLSTATE- Integrity constraint violation	1	Jul 26
View of paragraphs shows paragraphs removed	1	Jul 22
Is migration path from Drupal 8 to Drupal 9 defined? <small>drupal migration</small>	2	Jul 5

Progress ?

Development timeline

start date	end date	event
2020/10/09		<i>Manual deployment (template) of Drupal server resources</i>
2020/10/15		<i>Scaffold the DrupalSite operator with operator-sdk</i>
2020/11/18	2020/12/03	Site provisioning with operator
2020/12/02	2021/02/10	Implement basic features (site install, environments, custom builds)
2021/02/12	2021/02/20	Pilot migrations
2021/03/15	2021/07/05	Start Database integration
2021/03/20	2021/05/29	Automate Drupal updates
2021/03/25	2021/03/30	Scale tests, Ceph integration issues. Kubecon presentation.
2021/04/28	2021/06/01	Define release model of CERN Drupal Distribution
2021/05/04	2021/06/26	Integrate OIDC flow in Drupal sites
2021/07/05	2021/07/15	Implement backup & restore
2021/07/09		Migration process reaches maturity

Fun with integrations

How will this look like in the future?

Migration underway

All our websites are now previewed

Users excited with the new features!

- custom composer projects
- Drupal 9 previews

Drupal community is engaging

especially in pandemic times!

Monthly posts

User Engagement
Daily Active Users : Monthly Active Users

Beyond the horizon

Technical goals

- new Drupal use cases (Drupal as a backend)
- deploy other low-code website solutions
- give back to community: operator that works outside of CERN

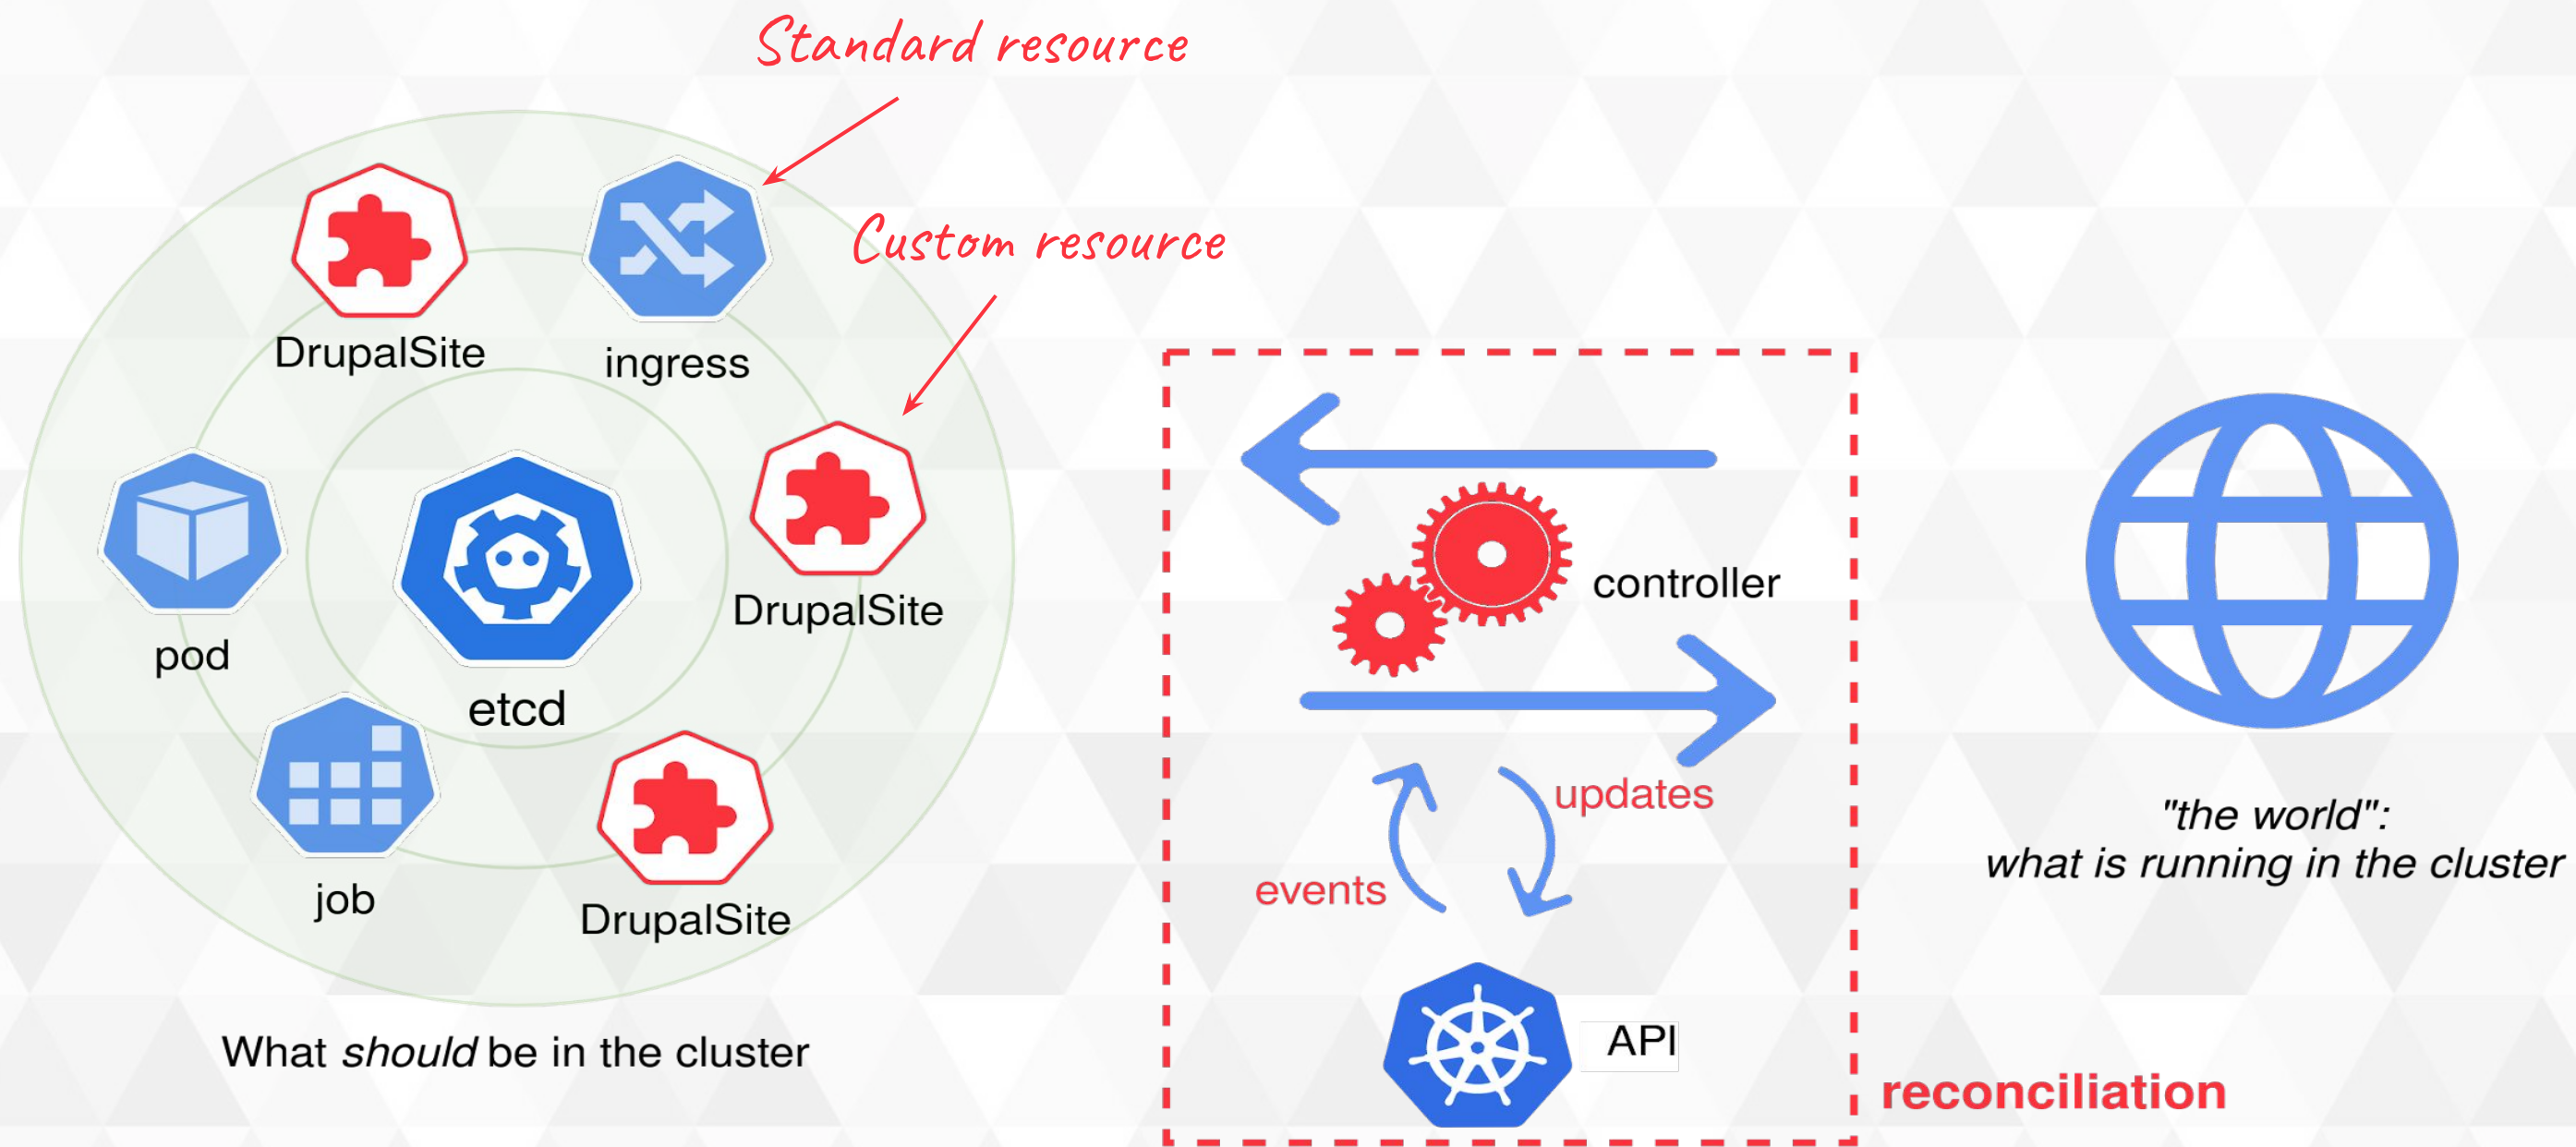

Is this infrastructure useful to You?

Poll

Thank you!

Operator a custom resource and controller, conceptually similar to an OOP **class** with data & methods
