

Session Program

16-19 May 2022

**International Workshop on Breakdown
Science and High Gradient Technology
(HG2022)**

Application

Wednesday 18 May

15:00

Application: WED-1

Session | **Location:** | **Convener:** David Alesini

15:00–15:20 **The CompactLight project and beyond**

Speaker

Gerardo Dauria

15:20–15:40 **The CHUV/CERN FLASH radiation facility collaboration**

Speaker

Walter Wuensch

15:40–16:00 **Compact Linac systems for VHEE and X-ray Flash radiotherapy**

Speaker

Hao Zha

16:00–16:20 **Proton CT facility based S-band linac**

Speaker

Wencheng Fang

16:20–16:40 **High-gradient C-band linacs for a VHEE-FLASH radiotherapy facility**

Speaker

Luigi Faillace

16:40–17:00

High-gradient linac for image-guided hadron therapy with FLASH capability

Speakers

Aurora Araujo, Sergei Kutsaev

17:00
