

European Middleware Initiative (EMI) – Training

Kathryn Cassidy, TCD

EMI NA2

EMI Training

Integrating different middlewares and development teams

- Both **in-reach** and **end-user training** required

Large project with a relatively modest training effort

- Necessary to draw upon expertise from the technical activities

Activities to-date (1)

Initial in-reach session at EGI TF

GridKa School 2010

Collection of training material links on wiki
<https://twiki.cern.ch/twiki/bin/view/EMI/EmiNa2T3TrainingMaterials>

Activities to-date (2)

Contact with EGI training coordinator

Process of creating online training content begun

Future in-reach events

At EMI or related project events

Specific workshops for smaller focussed discussions

Investigate possibility of online in-reach events

Contact us if you need support in organising a training event

End-user training

User training materials online

End-user training sessions at e.g. User
Forum

Train-the-Trainer sessions

Online Content

Slides from 1st in-reach session on the wiki

Web-based versions of these talks in development

Further online content to be developed

Topics

How to obtain, install and use each middleware

The software stack of each middleware and how components work together

Tools used by the whole project, e.g. ETICS

Collaborations

Sustainability of Schools of Grid Computing
workshop report

EGI training coordinator

Use of EGI digital library of training
materials

GridKa School 2011, IWSGC...

Input & Suggestions

If you have a training request please contact
us

emi-na2@eu-emi.eu
