

Standardization - Update

Aleksandr Konstantinov (University of
Oslo)

Outline

- Current status
- Achievements

Current status

- Relevant standards identified
 - Thanks all who participated in survey
 - See Deliverable DJRA1.5.1
 - In review state
 - 16 existing open standards
 - Future plans not finalized yet – task for next deliverable.

<https://twiki.cern.ch/twiki/bin/view/EMI/DeliverableDJRA151>

Current status (cont.)

- Standardization activities – external
 - Participation in PGI (OGF)
 - XML renderings of GLUE2 (OGF)
 - Usage Record enhancement (OGF)

Current status (cont.)

- Standardization activities – internal
 - VO SAML profile
 - XACML profile (ARGUS)
 - EMI Execution Service interface
 - EMI Job Description language
 - Common delegation interface - *New*

Achievements

- Significant advances in internal fields
 - All previously stated groups are advancing well
- Not much achieved externally
 - Standardization is slow process
 - Issues with EMI representation in PGI solved

Conclusions

•
