

Session Program

3-5 Oct 2010

**High precision measurements of luminosity at
future linear colliders and polarization of
lepton beams**

***Beam tests at DESY, cont'd - Chairperson:
Konrad Elsener***

Tel Aviv University, R. and B. Sackler School of Physics and Astronomy, Shenkar building, Melamed Hall
Tel Aviv University Campus, Ramat Aviv

Sunday 3 October

14:10

Beam tests at DESY, cont'd - Chairperson: Konrad Elsener

Session |**Location:** Tel Aviv University, R. and B. Sackler School of Physics and Astronomy, Shenkar building, Melamed Hall, Tel Aviv University Campus, Ramat Aviv

14:10–14:40

Beam tests of novel ASICs and GaAs sensors - DAQ, calibration and preliminary results

Speaker

Mr Itamar Levy

14:40–15:10

Progress on ADC development, first results with multichannel ADC

Speaker

Tomasz Fiutowski

15:10–15:40

Results of test beam analysis for GaAs prototype

Speaker

Olga Novgorodova

15:40–16:10

Test-beam with LumiCal sensor and front-end electronics

Speaker

Jonathan Aguilar

16:40
