Total		Total	505

Registration Statistics by Type

- Local: 21
 - In addition, a few IBS members registered as virtual. They will change to local if there are enough seats left. (which are most likely.)
- Virtual: 484

What Should We Do with Plenary?

- Zoom offers several options for delivery
 - “Meeting”: For lectures and small meetings, up to 1,000 people
 - “Webinar”: 500 ~ 50,000 people. I heard
 - This option restricts audience interactions.
 - Good for management.
 - Speaker cannot see the audience.
 - “Event”: A brand new service. We do not have any experience with it yet.
 - It offers multi-track concurrent session, though.
 - Zoom pricing is reasonable and is not a problem.

What Should We Do with Plenary?

- Consideration
 - How large is the audience? As of November 24, Asia 100, Europe 300, America 66, and no info 29
 - A person using multiple devices (PC, tablet, cellphone) may be recognized as multiple people use.
 - What does the event management company prefer?
 - According to an online conference organizer, number of connected people is usually much lower than the registrants. Could be at ~ 50%.

Covid Situation in South Korea

- The Korean government started booster shots for elder population (50 years and up).
- The Korean government relaxed the Covid rules since November 1st.
 - The group size at restaurants has been increased to 10 in metropolitan area and 12 in other areas.
 - However, number of patients in the metropolitan area is rapidly increasing.
 - The government may go back to the tighter rule in the metropolitan area.
 - Daejeon is outside of the metropolitan area, fortunately.
- The Korean government hasn't relaxed entry rules yet.

Proceedings

- It's time to sign the contract with IOP Journal of Physics Conference Series.
 - Publishing target: fall 2022
 - We need to create the editor list
 - How many pages per article?
 - JPC pricing does not depend on the page length.
 - Plenary/Parallel/Poster
 - Deadline?

Room Assignments in the IBS Science Culture Center

- Plenary: The Auditorium / S236
- Track 1: S221-A
- Track 2:
 - Monday/Tuesday/Wednesday, The Auditorium
 - Thursday S303
- Track 3:
 - S 305

Local Session Chairs

- Plenary: LOC
- Track 1:
 - Mon/Tue: Prof Chang-Seong Moon (a Track 1 convener)
 - Wed: Dr Kyungil Kim
 - Thur: Dr Panagiota Papakonstantinou
- Track 2:
 - Mon/Tue: Prof Junghwan Goh (a Track 2 convener)
 - Wed/Thur: Dr Kyungho Kim
- Track 3:
 - Mon/Tue: TBC
 - Wed/Thur: Prof Myeonghun Park (a Track 3 convener)

Uploading Recordings

- Zoom has the automatic recording option, which creates an MP4 file after a Zoom session.
 - It takes two hours to finish the rendering, which starts at the end of a session.
- The event management company will give us a full session MP4 file the next day.
 - It's difficult for them to create individual presentation recording in situ.
- Then we have the option of
 1. Uploading the full session MP4 file the next day. (LOC prefers this.)
 2. After the workshop, creates individual presentation videos by hiring students. Then upload them to CERN video service.
 3. 1 + 2.
- The quality of the videos uploaded at the CERN video service.
 - LOC and Axel tested the view quality, and found that the performance is not optimized.
