

SPC Update 2021-11-24

Axel Naumann, CERN (axel@cern.ch)

Timetable

<https://indico.cern.ch/event/855454/timetable/#all.detailed>

Finalized; three remaining plenary titles + abstracts expected today

Heroic work of track conveners and Yasemin!

- Thursday is compatible with Americas
- all other days compatible with Europe

Due to number of contributions and time-zone of committee chairs

Summary Session

David asked AN:

- collect summary input from tracks,
- present combined synthesis

SPC Meeting Nov 17

Chairing manual: <https://codimd.web.cern.ch/s/TrqYsz2JT#>

Tried poster session in Gather.Town

- A bit difficult to find your way: all posters now in a dedicated room session
- Apart from that: fantastic experience, much appreciated by SPC

Congratulations, LOC!

Poster Prizes

Will have prize for 3 best posters

- Lightning talk (but time zones...)

Will have prize for **3 best participants of poster session!**

Selection through CERN survey form

Best poster

Which posters did you like best? Please enter the posters' contribution IDs, as shown for instance in the file name of the posters, and in the Indico poster sessions.

ⓘ Please fill in at least one answer

ⓘ Each answer must be between 532 and 779

ⓘ Only integer values may be entered in these fields.

ⓘ All choices must be different

Contribution ID

Contribution ID

Contribution ID

Chairs

Finalizing session chairs

Several IAC members asked for help

Thank you!

Proceedings

Participants ask about deadline

Propose: Jan 23 (to be extended...)

Goal: disentangle ACAT 2021 proceedings from ACAT 2022 abstracts! (even if change in SPC)
