

# Phenomenology 2022 Symposium: From Virtual to Real

## Tuesday 10 May 2022

### QCD&EW III (16:30 - 18:30)

-Conveners: Ciaran Williams

| time  | [id] title   | presenter                   |
|-------|--|-----------------------------|
| 16:30 | [213] W Mass at CDF II   | HUSTON, Joey                |
| 16:45 | [215] A theoretical overview on the W-Mass measurement                                       | ISAACSON, Joshua            |
| 17:00 | [194] Electroweak Restoration at the LHC and Beyond: The Vh Channel                          | LEWIS, Ian                  |
| 17:15 | [74] Searches for strong production of supersymmetric particles with the ATLAS detector      | MARTIN DIT LATOUR, Bertrand |
| 17:30 | [50] Searches for electroweak production of supersymmetric particles with the ATLAS detector | BALLABENE, Eric             |
| 17:45 | [203] Multiboson measurements at CMS   | BHATTACHARYA, Saptaparna    |
| 18:00 | [202] Measurements of V+jets production in CMS   | NGUYEN, Duong Hai           |
| 18:15 | [188] Probing the $\mathcal{O}(1/\Lambda^4)$ effects on Drell-Yan process at the LHC         | Dr HUANG, Yingsheng         |
