

Session Program

14 October 2010

IWLC2010 talks

Calorimetry and Muons

CERN

Thursday 14 October

11:00

Calorimetry and Muons

Session | Location: CERN

11:00–11:20

Comparison of the Performance of Tungsten and Steel Hadronic Sampling Calorimeters

Speaker

Dr Peter Speckmayer

11:20–11:40

Studies of the CLIC HCAL depth with Pandora PFA

Speaker

Angela Isabela Lucaci Timoce

11:40–12:00

Impact of the shower time evolution for a Tungsten based HCAL

Speaker

Dr Mark Thomson

12:00–12:20

Investigation of the Time Structure of Showers in a Tungsten HCAL

Speaker

Dr Frank Simon

12:20–12:40

CALICE Tungsten HCAL Prototype status (was: Installation & commissioning of the CALICE tungsten HCAL testbeam module)

Speaker

Dr Erik Van der Kraaij

12:40–13:00

Performance of Muon identification in Pandora PFA

Speaker

Dr Erik Van der Kraaij

13:00
