

Session Program

14 October 2010

IWLC2010 talks

Higgs and Supersymmetry

CERN

Thursday 14 October

16:00

Higgs and Supersymmetry

Session | **Location:** CERN

16:00–16:20

Determination of Heavy Slepton Mass at CLIC

Speaker

Jean-Jacques Blaising

16:20–16:40

A Study of $e^+e^- \rightarrow H^0 A^0 \rightarrow b\bar{b}b\bar{b}$ at 3 TeV at CLIC

Speaker

Marco Battaglia

16:40–17:00

A Study of Chargino and Neutralino Masses using W and h energy spectra and threshold scans at CLIC

Speaker

Natali Alster

17:00–17:20

A Study of Light-flavored SQuark Production at CLIC

Speaker

Frank Richard Simon

17:40
