

# Tenth International Fermi Symposium

## Monday 10 October 2022

### Parallel 2: SNR/PWNe (16:00 - 17:30)

-Conveners: Pieter Meintjes

time	[id] title	presenter
16:00	[63] X and gamma ray correlations in the SNR RX J1713.7-3946	BALLET, Jean
16:15	[88] Comparisons of astrometric GeV and TeV observations	Prof. WAGNER, Stefan
16:30	[10] Study of maximum electron energy of sub-PeV pulsar wind nebulae by multiwavelength modelling	JOSHI, Jagdish
16:45	[38] Gamma-ray emission from young supernova remnants in dense, structured circumstellar environments	B., Robert
17:00	[84] Leptonic Nonthermal Emission from Supernova Remnants Evolving in the Circumstellar Magnetic Field	SUSHCH, Iurii
17:15	[51] SN 2016iyc: A Type IIb supernova arising from a low-mass progenitor	ARYAN, Amar
