

Tenth International Fermi Symposium

Tuesday, 11 October 2022

Parallel 3: AGN I (14:00 - 15:30)

-Conveners: Hartmut Winkler

time	[id] title	presenter
14:00	[97] Recent VERITAS Blazar Highlights	SPLETTSTOESSER, Megan
14:15	[86] Studying the multi-wavelength properties of gamma-ray flaring blazars at redshift > 3	GOKUS, Andrea
14:30	[145] Southern African Large Telescope Spectroscopy of Fermi-LAT Blazars	KASAI, Eli
14:45	[131] The variety of extreme blazars in the AstroSat view	GOSWAMI, Pranjupriya
15:00	[103] Modeling the Multi-wavelength Polarization and Spectral Energy Distributions of Blazars	SCHUTTE, Hester
15:15	[58] Effects of non-continuous losses during inverse Compton cooling in blazars	DMYTRIIEV, Anton
