

Tenth International Fermi Symposium

Tuesday 11 October 2022

Parallel 6: Pulsars II (16:00 - 17:30)

-Conveners: Andrey Timokhin

time	[id] title	presenter
16:00	[35] Visualizing the pulsar population using graph theory	TORRES, Diego F
16:15	[6] Gamma-ray Eclipses and Orbital Modulation Transitions in the Candidate Redback 4FGL J1702.7-5655	CORBET, Robin
16:30	[137] Modelling the high-energy curvature radiation for the Vela pulsar using a general particle dynamics approach.	DU PLESSIS, Louis
16:45	[139] Statistical Goodness and Utility: Lessons learned from multiband pulsar light curve fits	SEYFFERT, Albertus
17:00	[161] ENHANCEMENTS AND OPERATION OF AN ACCRETING PULSAR PROGRAM Over the last 11 years USING GBM DATA	JENKE, Peter
17:15	[171] _
