

Tenth International Fermi Symposium

Wednesday 12 October 2022

Parallel 7: Dark Matter (14:15 - 15:30)

-Conveners: Christopher Michael Karwin

time	[id] title	presenter
14:15	[5] Detection forecasts for annihilating DM in M31 and M33 galaxies with the Cherenkov Telescope Array	MICHAILIDIS, Miltiadis
14:30	[14] Connecting astrophysics and the LHC with anomalies	BECK, Geoff
14:45	[9] The GeV Galactic Center Excess in 2022	Dr CHOLIS, Ilias
15:00	[101] Constraining the Dark Matter annihilation cross section with a combined analysis of dwarf spheroidal galaxy observations from Fermi-LAT, HAWC, H.E.S.S., MAGIC, and VERITAS	MIENER, Tjark
15:15	[74] Solar dark matter scattering constraints with the Fermi Large Area Telescope	SERINI, Davide
