

Laser & Optics workshop

**CERN PBC Technology Working Group
Mini-workshop series**

Laser & Optics Workshop goals

- **Technical aspects, but always with physics in the background**
- **Short review of optics expertise already present at CERN**
- **Short review of optical techniques applied at current, planned and proposed CERN experiments**
- **Focus:**
 - **projects intended to be carried out at CERN**
 - **advanced techniques with possible synergies at CERN**

Welcome to the workshop!
