

GDB Introduction

Josep Flix [PIC/CIEMAT]

Mattias Wadenstein [University of Umeå]

GDB, 12th January 2022: **virtual meeting**

Meeting Details (Covid-19 matters)

Happy new year! Omicron worsened the whole thing! ... Vaccine roll-out ongoing, 3rd dosis even 4th, kids... some travels allowed, but...

Meeting Details (Covid-19 matters)

CERN is level 4 (RED!) as of now:

CERN will be on COVID-19 Level 4 - Red from 10 January
On-site COVID-19 vaccine now available for ALL

<https://hse.cern/alert-level/general-level-4-red>

The GDBs and pre-GDBs solidifying as **remote-only meetings**

The most important thing for you, your relatives and friends is
to stay healthy!

CERN & Covid-19 : What's new this week

<https://hse.cern/covid-19-information>

Meeting summaries

The co-chairs try to take notes for the meetings, but sometimes we are busy running the meeting the notes can possibly be lacking (**in fact they are!**):

<https://twiki.cern.ch/twiki/bin/view/LCG/WLCGGDBDocs>

- if **you take notes, please share them with us**, so we can merge the information and make the summaries more complete
- We **record** the sessions **•LIVE** as we integrate the videos into the agenda as well

Today's topics

Working in EGI-ACE and WLCG on the HTC to HPC transition [[David Southwick](#)]
DPM status and migration tools [[Petr Vokac](#)]

Morning
Afternoon

DPM sites in UK (status and plans) [[Sam Skipsey](#)]
Einstein Telescope Computing and Challenges [[Stefano Bagnasco](#)]
ATLAS AFs: status, plans [[Alessandra Forti](#)]

→ **Thanks in advance to all of today's speakers!**

WLCG RTE TF status update

First meeting of the Resource Trust Evolution TF held 9/12/2021

Good representation from stakeholders

- Experiments/sites/ops/security/identity management/developers

Useful discussion towards

- Problem statement
- Scope and timeline
- Solution pool

Plan for next meeting **this month**

- Already have good set of people in the TF but interested parties welcome
- Contact David Crooks/Maarten for more details

<https://twiki.cern.ch/twiki/bin/view/LCG/ResourceTrustEvolution>

Next pre-GDBs

Operations efforts savings

[follow-up from a meeting with LHC referees] - likely in Feb. 2022

pre-GDB (from meeting with LHC Referees) to review the situation with computing operations in the experiments and central Ops, to understand where we can save effort

DPM: next steps/actions by regions?

[follow-up with regions] - we plan for presentations in the Dec. - Feb GDBs, and will solicit interest in a pre-GDB based on feedback after these

pre-GDBs/GDBs organization

Please consider using pre-GDB lots to organize topical sessions!

Let Mattias and myself know if you have topics to bring to the thematic pre-GDBs or GDBs

Also, let us know if you would like things to happen/improve!

You can email us or use the **GDB mattermost channel**:

<https://mattermost.web.cern.ch/wlcg-gdb/channels/wlcg-gdb>

Upcoming meetings

CSC Conference 2022: 24-28 January 2022 [\[link\]](#)

International Symposium on Grids and Clouds (ISGC) 2022 (Virtual Event): 21 - 25 March 2022 [\[link\]](#)

LHCOPN and LHCONE meeting #48: 29-30 of March 2022 - online only [\[link\]](#)

HSF Workshop 2022 **[most likely 16th-20th May 2022]**

HTCondor Week: 23-26 May 2022

HEPIX Spring 2022 Workshop: 25-29 April 2022 [\[dates confirmed\]](#)

DIRAC workshop (virtual): 9-10 May 2022 [\[link\]](#)

WLCG Workshop 2022* **[Hybrid form[†]]**

* Focus on the evolutions of the facilities, and how they will support the future workflows and needs of the experiments

† Options

- (1) Mon 23 May to Wed 25 May (Thu 26 May is Ascension and many people will also take Fri 27 May off)
- (2) Tue 7 Jun to Fri 10 Jun (note that Mon 6 Jun is Pentecost), which however is the same week as ALICE week
- (3) same week as the HSF Workshop
- (4) Mon 26 to Mon 30 Sep

Logistics:

- (1) we would need space for ~150 people (but it could end up being lower) and we would need to allow some sort of hybrid workshop (with remote attendees)
- (2) we would need flexibility (we could cancel last minute depending on the pandemic)
- (3) we would need to be reachable in a simple way (near a relatively big airport or reachable by car, no tight quarantine restrictions – even if these are difficult to predict now)

→ Anyone who has a proposal should contact [S. Campana](#)

Main CERN School of Computing 2022: 28th Aug. – 10th Sep. 2022, Krakow, Poland [\[link\]](#)

Nordunet conference 2022: 13th-15th Sept. 2022, Reykjavik, Iceland [\[link\]](#)

ACAT 2022: 24th-28th Oct. 2022, Bari, Italy [\[link\]](#)

➡ Anything we've missed, let us know & we'll add it to the slide

* Please, refer to the HSF calendar for detailed meetings info: <https://hepsoftwarefoundation.org/future-events.html>

WLCG web re-structure

Following the migration of websites to Drupal 9 at CERN, and to simplify the migration to Drupal 10, the **WLCG collaboration website** has been re-structured, to eventually replace <https://wlcg.web.cern.ch/>

The **test site** is at: <https://wlcg-test-cern.web.cern.ch/>

It's still **work in progress**, but it is aimed to be released around the end of January

Feedback and comments are welcome: contact Mattias/myself so we pass comments to developers
