

# GDB Introduction

Josep Flix [PIC/CIEMAT]

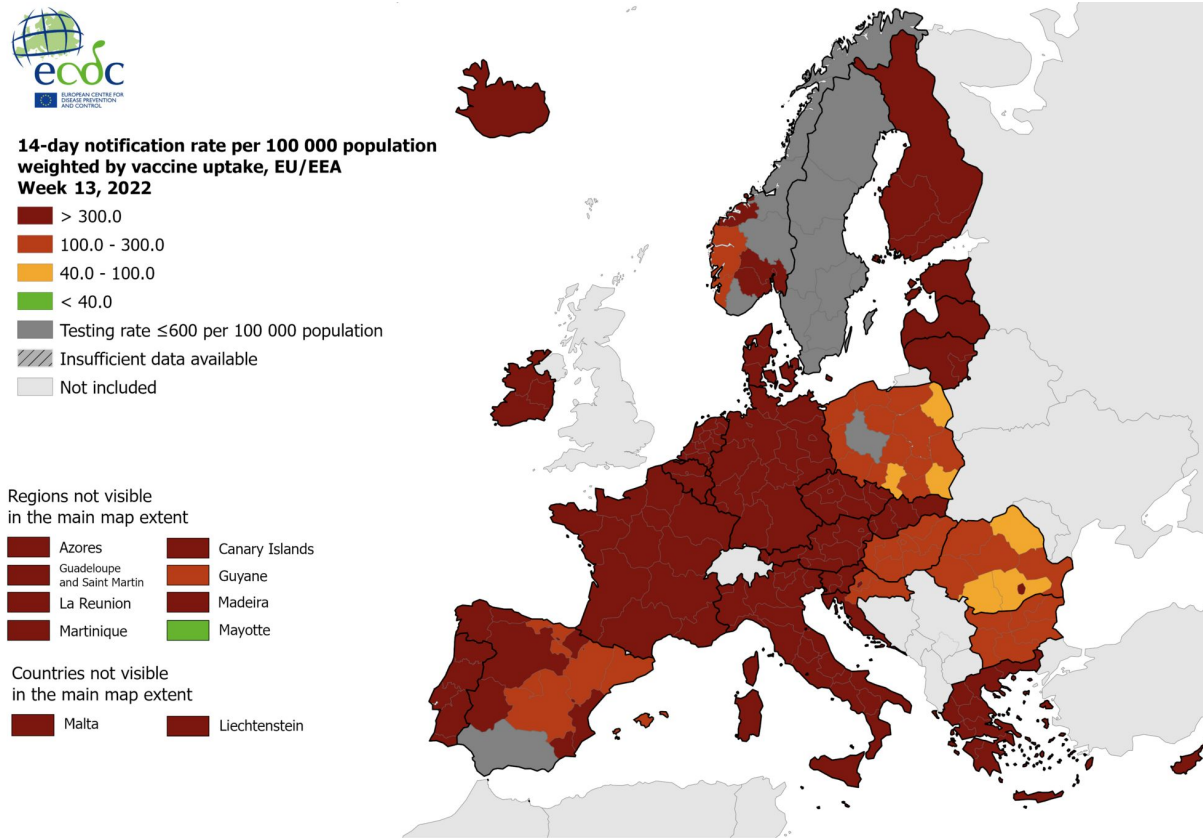

Mattias Wadenstein [University of Umeå]

GDB, 12<sup>th</sup> April 2022: **virtual meeting**

# Meeting Details (Covid-19 matters)

There are still lots of cases, but European countries with high vaccination rates find Covid-19 less of an issue than previously. This includes CERN host countries, where travel is generally possible.

# Meeting Details (Covid-19 matters)

CERN is level 2 as of now:

COVID-19: CERN is on Level 1 - Green from 14.3

We plan for having the next GDB as a Hybrid Meeting in May!

The most important thing for you, your relatives and friends is  
**to stay healthy!**

# Meeting summaries

The co-chairs try to take notes for the meetings, but sometimes we are busy running the meeting the notes can possibly be lacking (**in fact they are!**):

<https://twiki.cern.ch/twiki/bin/view/LCG/WLCGGDBDocs>

- if **you take notes, please share them with us**, so we can merge the information and make the summaries more complete
- We **record** the sessions **LIVE** as we integrate the videos into the agenda as well

# Next pre-GDBs

## **Kubernetes for WLCG: June 7th**

## **DPM: next steps/actions by regions?**

[follow-up with regions] - we plan for presentations in the Dec. - Feb GDBs, and will solicit interest in a pre-GDB based on feedback after these

## **CTA migrations**

[follow-up from November 2021 pre-GDB] - get together and discussions from sites migrating or already migrating to CTA, CTA and Storage Services developers

## **Archival Storage**

We had a fairly hardware-focused pre-GDB last year, time for a new GDB, maybe with more focus on services and delivery?

## **CernVM/cvmfs workshop: September 12th-14th**

Will include a co-located in-person/hybrid GDB on the 14th and a token hackathon on the 15-16th

# pre-GDBs/GDBs organization

Please consider using pre-GDB lots to organize topical sessions!

Let Mattias and myself know if you have topics to bring to the thematic pre-GDBs or GDBs

Also, let us know if you would like things to happen/improve!

You can email us or use the **GDB mattermost channel**:

† Dates: Late september or october

**Logistics, still looking for volunteer host:**

(1) we would need space for ~150 people (but it could end up being lower) and we would need to allow some sort of hybrid workshop (with remote attendees)

(2) we would need flexibility (we could cancel last minute depending on the pandemic)

(3) we would need to be reachable in a simple way (near a relatively big airport or reachable by car, no tight quarantine restrictions – even if these are difficult to predict now)
