

Data Analysis Working Group: Summary of 2021

- Meeting series on Metadata in analysis [1](#) [2](#) [3](#), paper submitted to Computing and Software for Big Science
- 4-meeting series on analysis software in wider HEP/Nuclear community [1](#) [2](#) [3](#) [4](#)
 - Go here if you want to see what others do!
- Meetings on analysis benchmarks: [Fitting](#)
- [Workflow management tools](#); best attendance in 2021

Data Analysis Working Group: 2022

- How to better generate interest among analysis people?
Find the relevant fora in different experiments
- Possibly another meeting on workflow management tools, given good past attendance
- Implementing systematic uncertainties in an analysis:
 - What are experiments doing? Can core software frameworks help?
- HSF analysis ecosystems workshop: synergies?
- Not-so-clear ideas:
 - Expand on benchmarks discussions
 - Efficiency/green analysis. Does anybody work on this already? Survey?
 - Find out what are the biggest problems that analysis people face? Survey?
