

Kickoff Meeting on Simulation

ECFA Workshops on Higgs Factories WG2

Fulvio Piccinini (INFN Pavia), Patrizia Azzi (INFN Padova/CERN), Dirk Zerwas (IJCLab/DMLab)

Jointly organized with the KEY4HEP coordinators (Geri Ganis, Andre Sailer, Frank Gaede):

- **Thank you:**
 - Speakers, session chairs and participants for the lively discussions (in inconvenient time zones)
- Impressive work (Fast sim, full sim validated with real detector prototypes,...)
- Will follow up on different ideas:
 - G4 questions (rare processes, decays in G4...)
 - Timing
 - Delphes with (cos)theta mapping for ee..., event display?
- Subscribe to ECFA-Workshop-Higgs-factory@cern.ch to be informed of all activities (via CERN egroups)
- **Kickoff Meeting (same format) on Reconstruction: first week of May at DESY (TBC) monitor the mailing list :)**
