

# Zimányi School 2021

## Tuesday 7 December 2021

### Odderon and Diffraction - 7.22 Kari Tanácsterem (7th floor Council Room) (09:00 - 10:33)

| time  | [id] title  | presenter                              |
|-------|---|--|
| 09:00 | [21] The first experimental observation of odderon exchange                       | NEMES, Frigyes Janos<br>NEMES, Frigyes |
| 09:25 | [22] $H(x)$ scaling and Levy description of elastic pp and p $\bar{p}$ scattering | STER, Andras<br>STER, Andras           |
| 09:50 | [23] $H(x)$ scaling and the pp and p $\bar{p}$ slope $B(s,t)$                     | SZANYI, Istvan<br>SZANYI, István       |
| 10:08 | [24] Understanding Neutrino Beams   | NAGAI, Yoshikazu                       |
