

Session Program

6-10 Dec 2021

Zimányi School 2021

Vorticity, Chirality, Polarization

Eötvös University, Lágymányos Campus, Northern Building, 7.22 Kari Tanácssterem (7th floor Council Room)
1113 Budapest, Pázmány Péter sétány 1/a.

Wednesday 8 December

16:35

Vorticity, Chirality, Polarization

Session |

Location: Eötvös University, Lágymányos Campus, Northern Building, 7.22 Kari Tanácssterem (7th floor Council Room), 1113 Budapest, Pázmány Péter sétány 1/a.

16:35-17:00

Search for the Chiral Magnetic Effect with isobar collisions

Speaker

Prithwish Tribedy

17:00-17:25

Interpretation of Lambda polarisation measurements

Speaker

Wojciech Florkowski

17:25-17:43

Kinetic theory for massive spin-1 particles in electromagnetic fields

Speaker

David Wagner

17:43-18:01

Generalized Framework: Canonical Dissipative Spin Hydrodynamics

Speaker

Asaad Daher

18:01-18:19

Polarization effects at finite temperature and magnetic field

Speaker

Michał Szymanski

18:19-18:20

Conference photo (on Zoom)

18:20
