## Thursday, 9 December 2021

### QCD and Hadronization - 7.22 Kari Tanácsterem (7th floor Council Room) (09:00 - 10:37)

time	[id] title	presenter
09:00	[66] Chiral criticality and the role of repulsive interactions in hot hadronic matter	MARCZENKO, Michał MARCZENKO, Michał
09:25	[67] Instabilities in Classical Chromodynamics	BAZAK, Sylwia
09:43	[70] Impact of hadronisation process and hadronic cascades on the 2nd order susceptibilities studied through the BES with EPOS 4	JAHAN, Johannes
10:01	[69] One-loop HTL thermodynamics of magnetized QCD matter	KARMAKAR, Bithika
10:19	[68] Initial conditions for hydrodynamic simulations of collisions at RHIC-BES energies	STERBA, Jakub
