

8th International symposium on Negative Ions, Beams and Sources - NIBS'22

Wednesday, 5 October 2022

Oral session 9 - Auditorium (14:10 - 16:40)

time	[id] title	presenter
14:10	[5] Caesium Balance of the ISIS H ⁻ Penning Ion Source in Long Pulse Operation	TARVAINEN, Olli Antero
14:40	[48] Plasma Electrode Materials for Cs-free Negative hydrogen ion Sources	SASAO, Mamiko
15:10	[86] The effect of oxygen impurities on a caesium-covered Mo(001) surface: insights from Molecular Dynamics simulations for negative ion sources.	RUTIGLIANO, MARIA
15:40	[37] Rotational and vibrational temperatures of Hydrogen nonequilibrium plasmas from Fulcher band emission spectra	BRUNO, Domenico
16:10	[27] Development and Commissioning of a Hydrogen Ion Source for the CERN ALPHA Experiment	JOHNSON, Mark Andrew
