

FLASY 2022 - 9th Workshop on Flavour Symmetries and Consequences in Accelerators and Cosmology

Tuesday 28 June 2022

Parallel Session I.1 - Room QA1.1, South Tower (16:45 - 18:30)

-Conveners: Mu-Chun Chen

time	[id] title	presenter
16:45	[13] Leptogenesis assisted by complex scalar singlet	MARQUES BARREIROS, Débora
17:00	[79] Role of Higher-Dimensional Operators in an Anomaly-free U(1) extension	DEKA, Kuldeep
17:15	[7] Neutrino mass and the early universe	FU, Bowen
17:30	[28] Cosmology-friendly time-varying neutrino masses in beta decay experiments	MARTINEZ-MIRAVE, Pablo
17:45	[33] Neutrino Portal to FIMP Dark Matter with an Early Matter Era	COSME, Catarina
18:00	[32] First direct detection constraints on Planck-scale mass dark matter in DEAP-3600	LAI, Michela
