

Panel: Importance and sustainability of multi-science projects

Tuesday 22 March 2022 16:50 (40 minutes)

Discussion on managing and funding of software projects that are being used across different scientific disciplines. Is a pure Open Source approach enough or sufficient? How can funding be secured for the long term? And more...

Presenters: Dr RADEMAKERS, Fons (CERN); Prof. PIJPERS, Frank (CBS / UvA); Dr BAUER, Roman (Univ Surrey)

Session Classification: Multi-Science Collaborations
