

LIM, December 6, 2021

Connected: André Sailer (Chair), Andrei Kazarov, Ben Couturier, Bertrand Bellenot, Dmitri Konstantinov, Ewelina Lobodzinska, Guilherme Amadio, Harald Hansen, Ilias Goulas, Johannes Elmsheuser, Marco Clemencic, Nicolas Lurkin, Omar Zapata, Pere Mato, Reiner Hauser

Apologies: Gerri, Giulio

Indico: <https://indico.cern.ch/event/1100969/>

Next Meeting: January 17, 2022

1 Nightlies

- dev3:
 - Johannes: unavailability is noticeable by ATLAS, but not a major issue
 - Marco: similar for LHCb, not an issue if unavailable for a few days only
 - Pere: Swan bleeding edge also OK, unless for more than 7 days and the 'latest' softlink is removed
- devARM
 - Johannes: Many thanks for adding the packages, what about the packages not currently added?
 - Andre: We will try to add them
 - Johannes: Would it be possible to build the stack with gcc11?
 - Pere: Need to add gcc11 for aarch64

2 Releases and Layers

- Pythia8 patch missing for LCG_100.LHCB_5,6,7] LCG_101.LHCB_7 ([SPI-2043](#))
 - Packages for one platform missing, to be confirmed by Ben in [SPI-2043](#)

- LCG_101_ATLAS_567 ([SPI-2024](#), [SPI-2036](#)): layers are fine, tickets can be closed
- LCG_101_ATLAS_8 ([SPI-2042](#))
 - Andre: Are there more python packages needed like 'coverage', would need to update top_packages.
 - Madgraph version to be confirmed and tested

3 Other Issues

- Clang 13 ([SPI-2012](#)): installed for ATLAS without GOLD and asserts enabled, recipe used to be added to the ticket
- Gaudi on Centos8 ([SPI-2010](#)): No time to investigate so far.

4 AOB

4.1 ATLAS

NTR

4.2 LHCb

NTR

4.3 SWAN

NTR

4.4 NA62

NTR

4.5 BE

4.6 ALICE

NTR

4.7 CMS

5 Next meeting

Next meeting will be on January 17, 2022.
Nice vacation, and happy holidays everyone!
