

Session Program

11-14 Apr 2022

Standard Model at the LHC 2022

Electroweak

CERN, 500/1-001 - Main Auditorium

Monday 11 April

14:15

Electroweak

Session | **Location:** CERN, 500/1-001 - Main Auditorium | **Conveners:** Paolo Azzurri, William Barter

14:15–14:30 **High precision observables in DY**

Speaker

Ayres Freitas

14:33–14:48 **Mixed EW-QCD corrections to W/Z production**

Speakers

Alessandro Vicini, Alessandro Vicini

14:51–15:06 **Recent results on W mass and branching fraction**

Speaker

Menglin Xu

15:10–15:25 **Z invisible BR/DY AFB/forward Z and mass dependent pt**

Speaker

Oz Amram

15:30

Thursday 14 April

12:30

Electroweak

Session | **Location:** CERN, 500/1-001 - Main Auditorium | **Conveners:** Stefan Dittmaier, Paolo Azzurri

12:30-12:45 **Precision calculations for multiboson production and VBS**

Speaker

Mathieu Pellen

12:48-13:03 **Recent results on vector boson fusion and diboson production**

Speaker

Emmanuel Sauvan

13:06-13:21 **Recent results on Vector boson scattering and triboson production**

Speaker

Roberto Covarelli

13:24-13:39 **Predictions for polarized W/Z production**

Speakers

Giovanni Pelliccioli, Giovanni Pelliccioli

13:45
