

## EOS workshop

Contribution ID: 8

Type: 15 Minutes

## CTA at AARNet

*Wednesday, 9 March 2022 09:05 (15 minutes)*

In this presentation, we will report on how we at AARNet deployed CTA along with restic backup client as a backup/ archive solution for our production EOS clusters. The solution has been in production since late 2021. This presentation will aim to cover why we chose CTA, how CTA is deployed, and how it is integrated into our backup workflow.
