

# Connecting the Dots

## Workshop on Intelligent Trackers

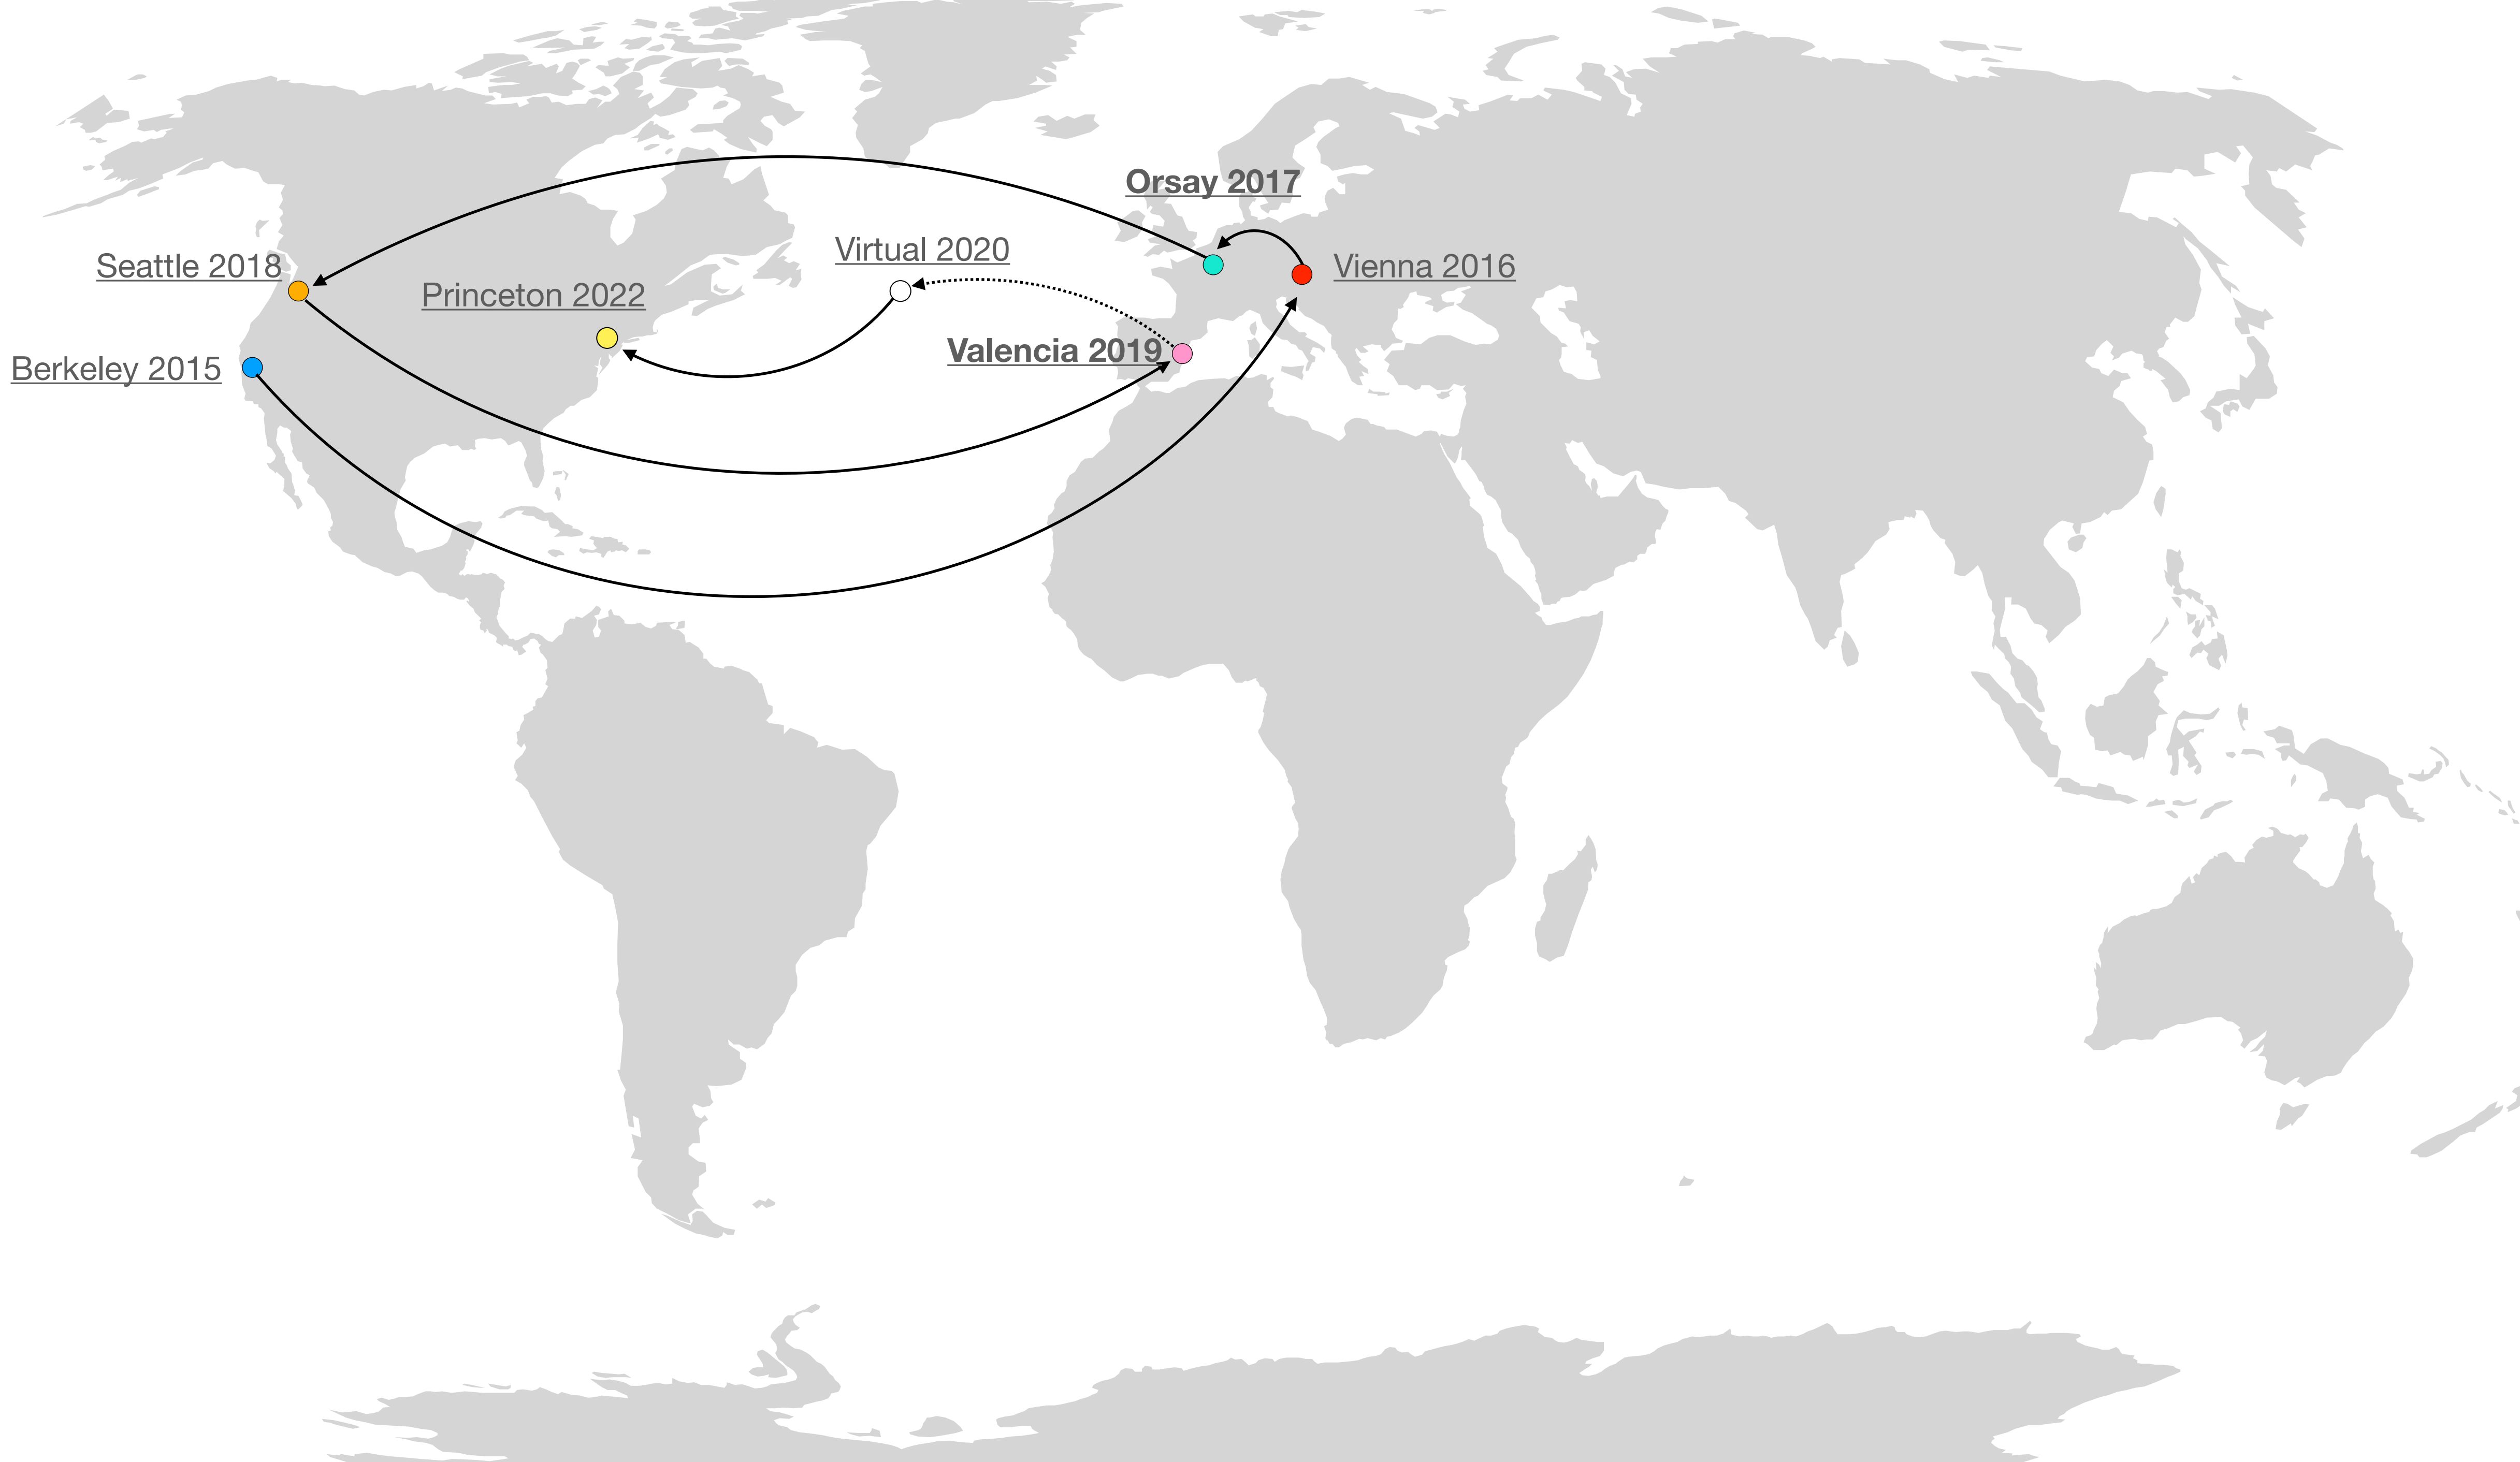

**CTD/WIT** established in 2016 & developed into our community conference/workshop

- kept a workshop-style character throughout the years
  - no parallel sessions, emphasis on discussions
  - this conference was no exception, **thank you all for your participation**
- mixture of new R&D and progress tracking
- good to see you all in person this year!

The hot topic: graph networks

Berkeley 2015

Seattle 2018

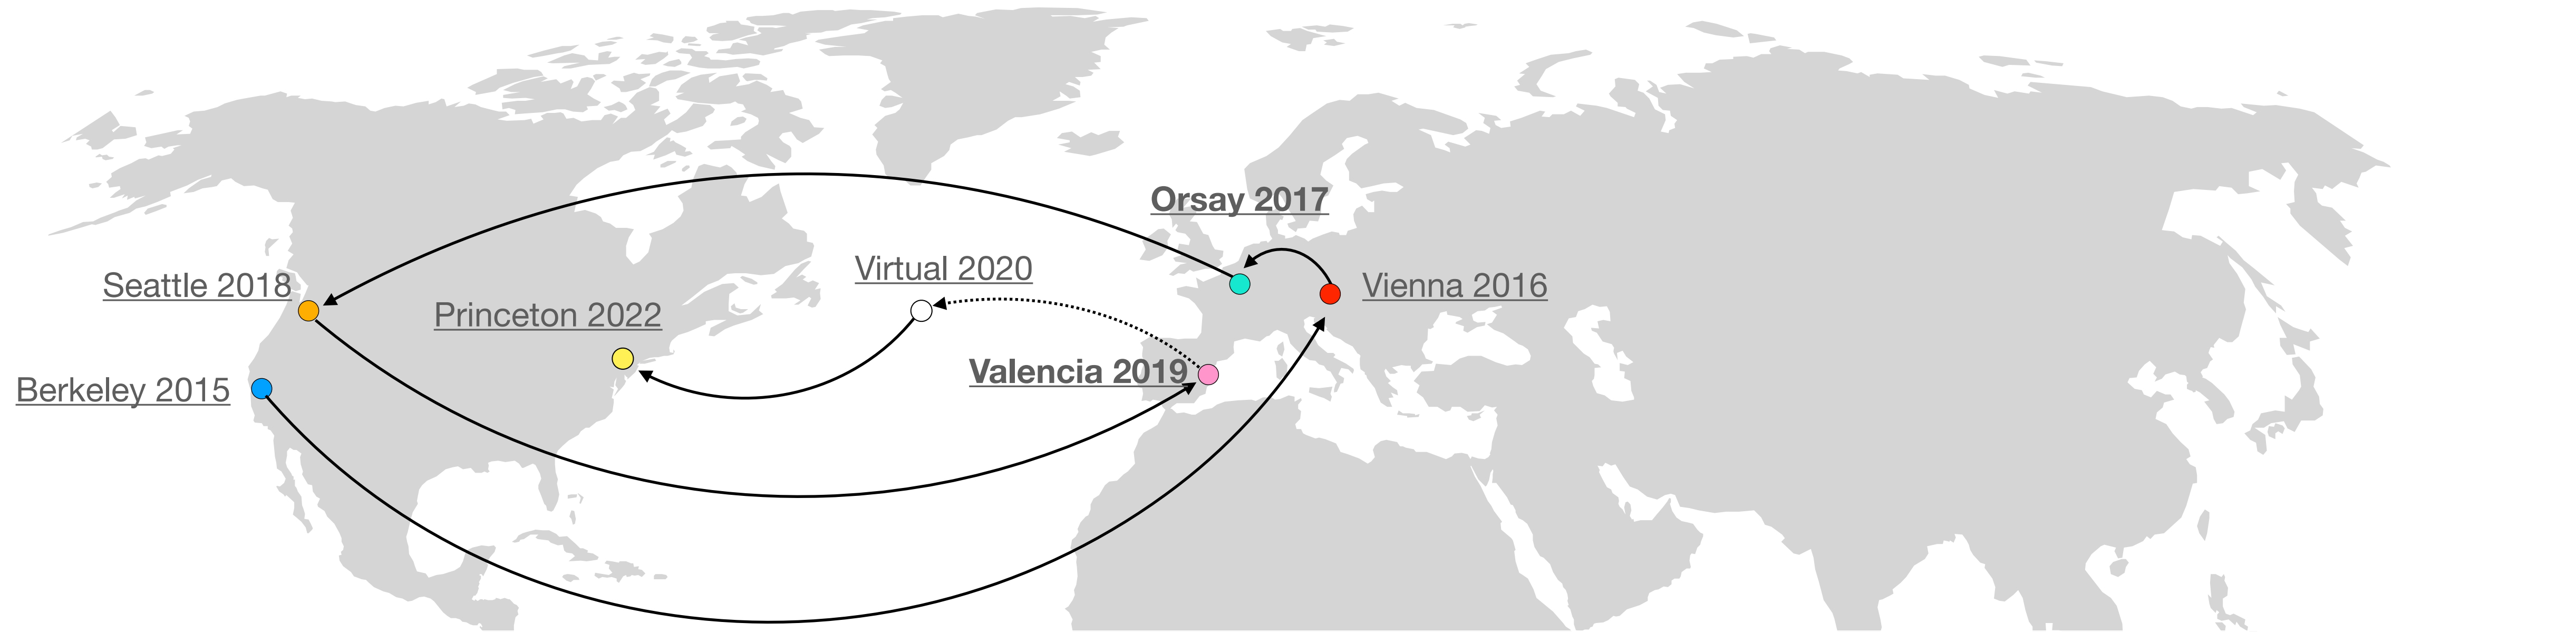

Princeton 2022

Virtual 2020

Valencia 2019

Orsay 2017

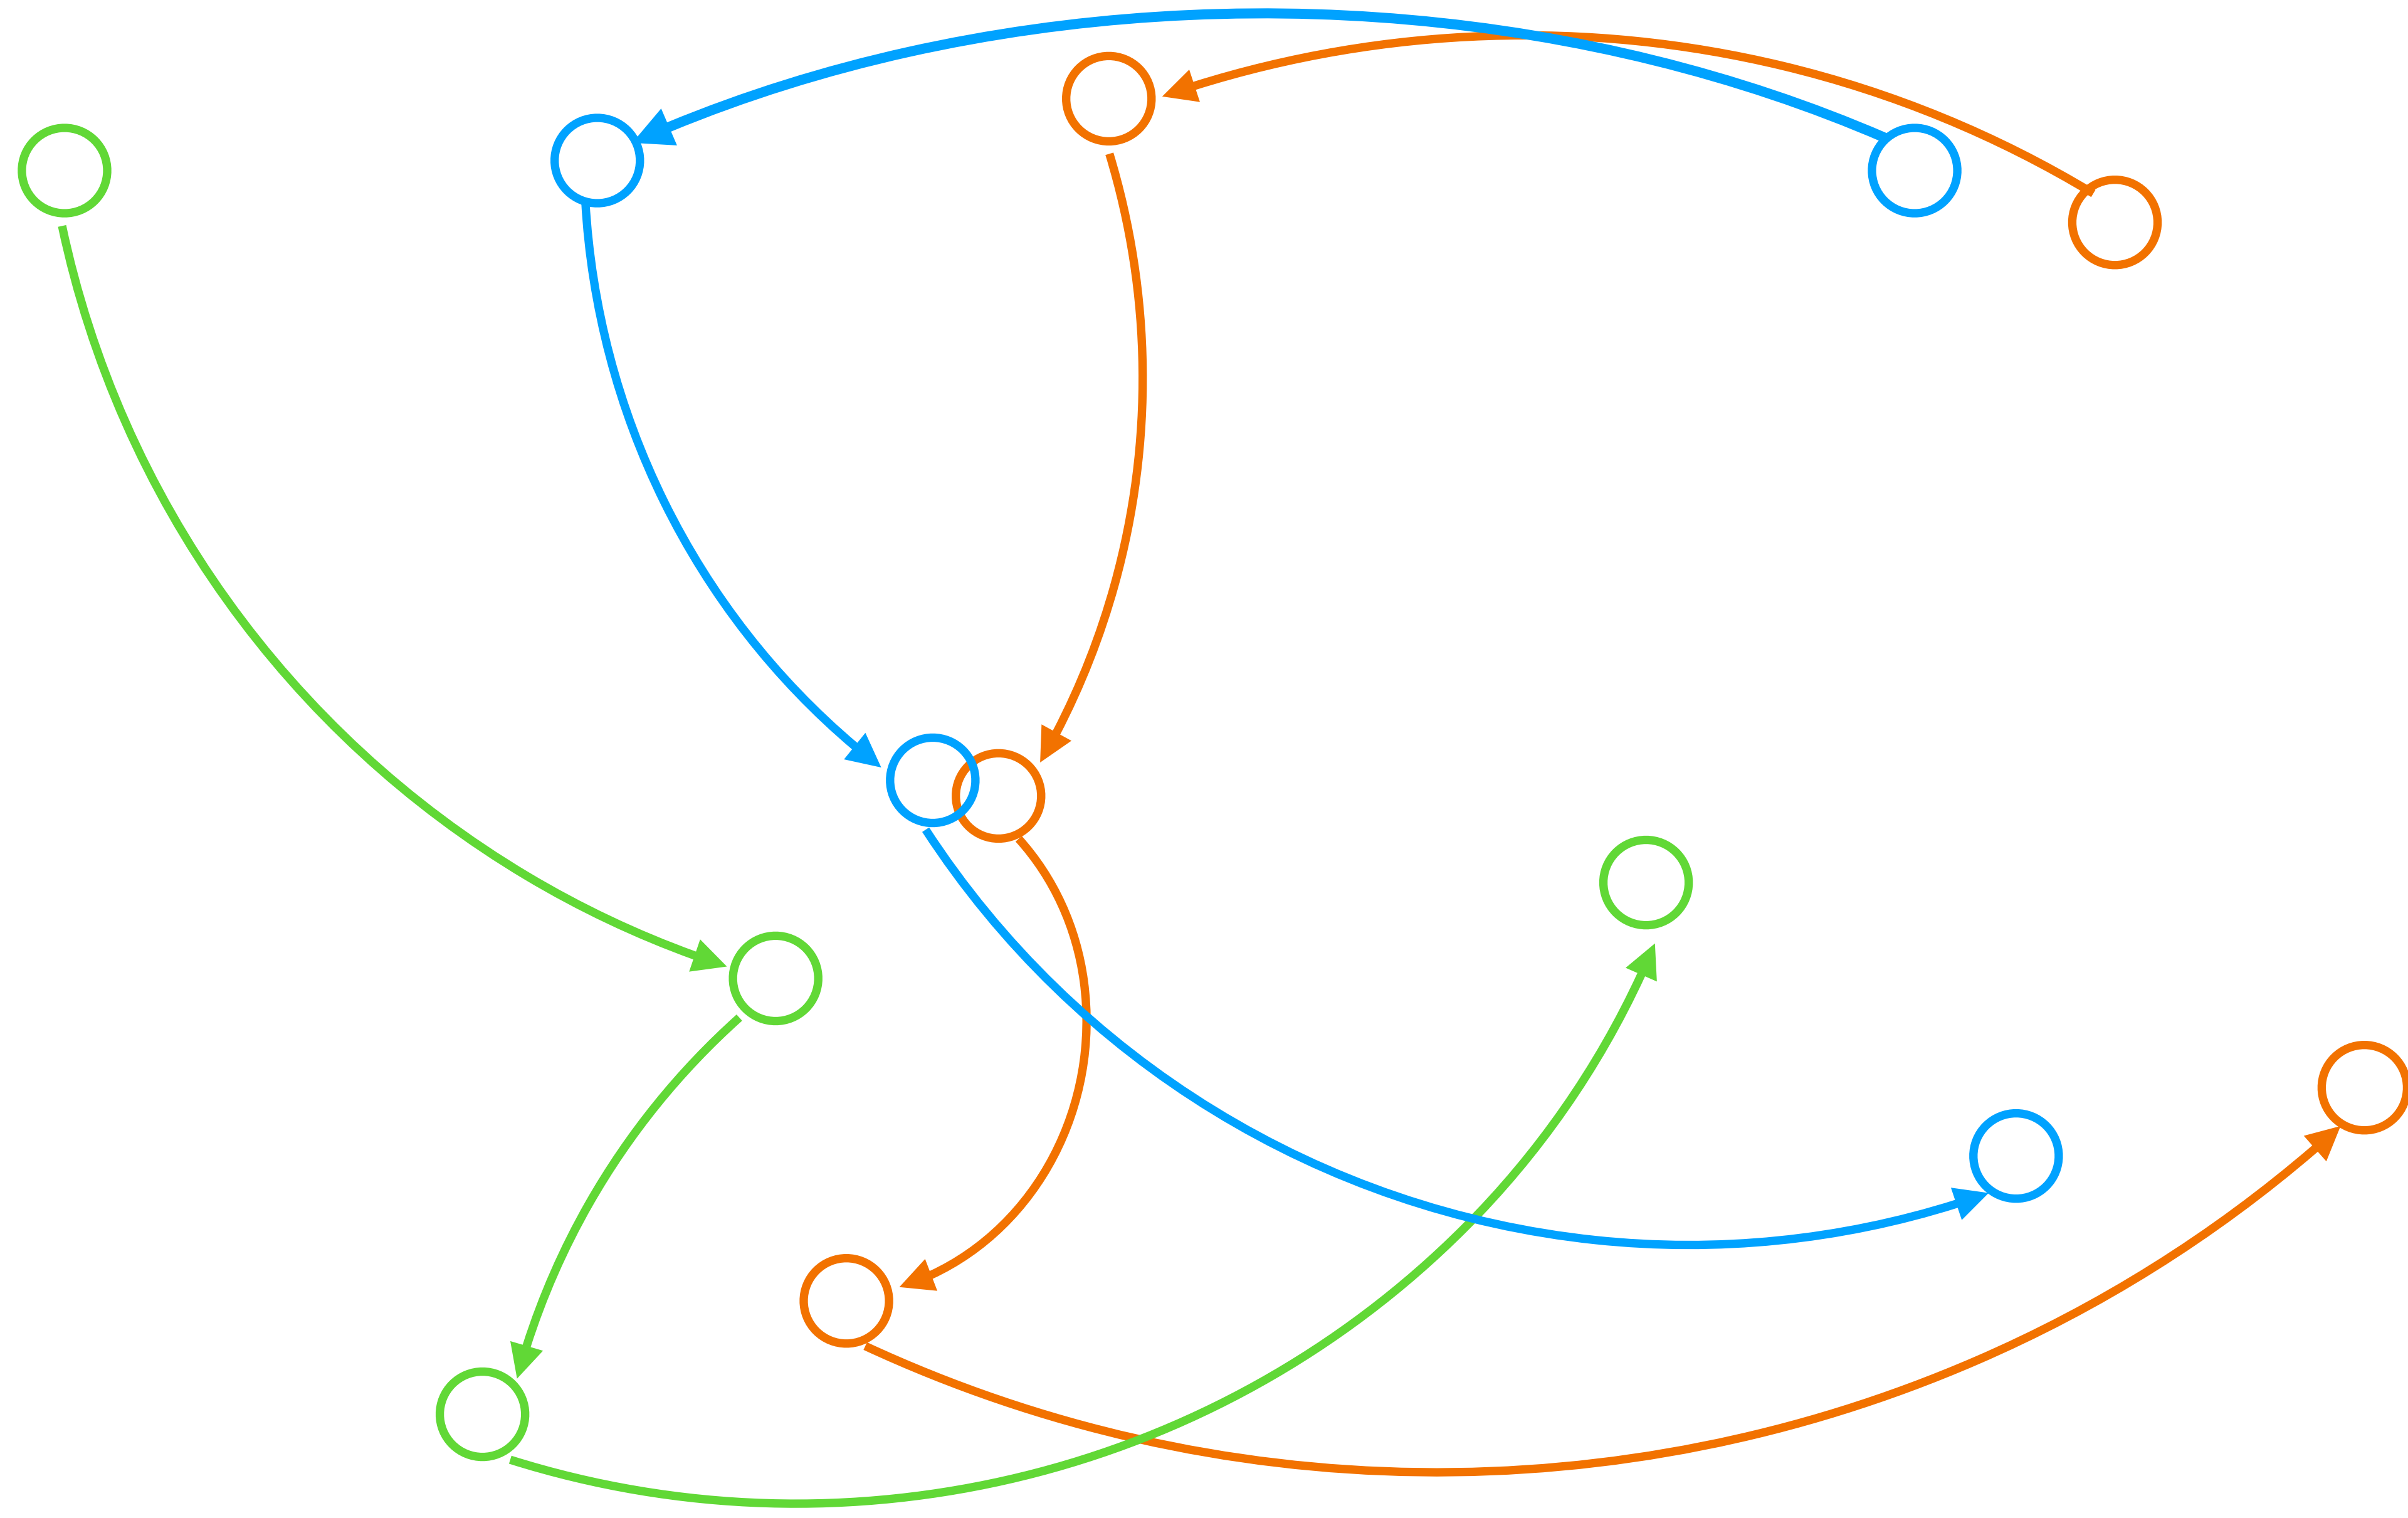

Vienna 2016

## We invite submission of proposals for CTD/WIT 2023

- please get in touch with [ctd2022-loc@iris-hep.org](mailto:ctd2022-loc@iris-hep.org)
- number of on-site participants ~50-100
- usually 3 day program + eventually 1 day of WIT
- possibility of attached workshop (e.g. GNN 2022, TrackML 2018)
