Kunnskap for en bedre verden

---

NTNU's goals for cooperation  
with CERN and NorCC

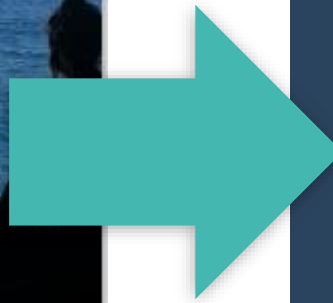

NorCC kick-off seminar March 11<sup>th</sup> 2022

# Internationalization

# CERN – NTNU longterm, robust partnerships

01

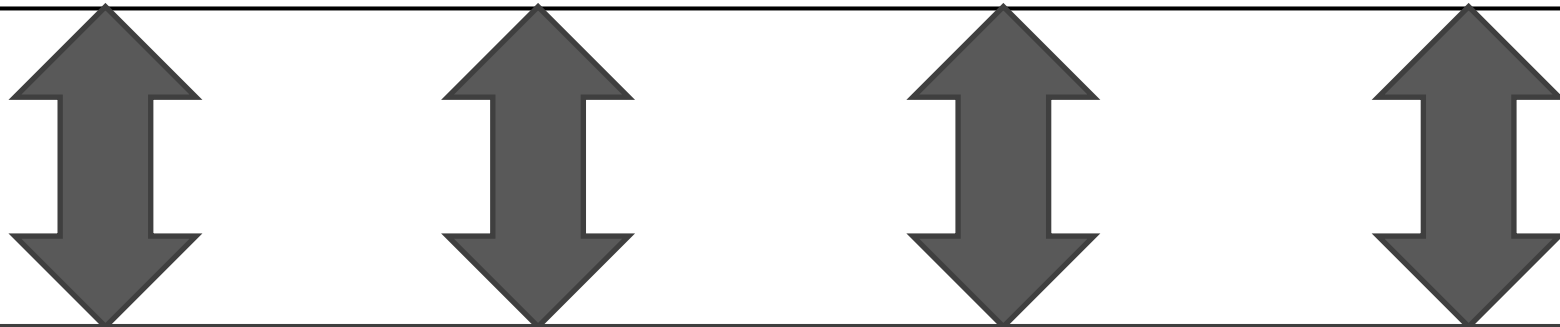

INTERNATIONAL COOPERATION, ALLIANCES AND PARTNERSHIPS

## Call for joint PhD projects NTNU - CERN

- Joint application for Ph.D.-projects
- Joint supervision
- 1 ½ year at NTNU and 1 ½ year at CERN

NTNU and CERN has engaged in long-standing cooperation in a number of scientific areas. To strengthen the cooperation, NTNU and CERN have decided to allocate funding for joint PhD-project.

NTNU and CERN researchers are hereby invited to submit applications for joint PhD-projects. The deadline for submitting applications is 1 October 2019.

Long-term impact: Joint publications, Funded projects from Horizon Europe, Researcher mobility, Student projects and mobility, Infrastructure cooperation

# Student exchange CERN - NTNU

3 – 7 students each year

Ambitions to increase the number and linked to the joint PhD projects

## **CERN is an important platform for technological cooperation**

- NorCC should work to create larger alliances to respond to some of CERN's priority technological challenges
- Explore important potential in the knowledge transfer area, innovation and entrepreneurship
- Contribute to sustainable development of CERN through targeted projects
- **NTNU must get research funding out of the collaboration and from NorCC**
