Crowdfunding your outreach project

Tuesday 17 May 2022 19:00 (1 hour)

In recent years, crowdfunding platforms have gained popularity as a way to raise funds for various endeavors. This poster discusses the use of crowdfunding as a non-traditional way to finance physics outreach projects. Such tools can provide much needed flexibility to projects and serve as a platform to spread the word about your project. The poster is based on first-hand experience using such tools and includes a discussion of important advise and common pitfalls.
