

## **Session Program**

**7-10 Feb 2022**

### **RD51 Mini-Week**

#### ***WG2 - Detector Physics and Performance***

remote-only

## Tuesday 8 February

15:00

### WG2 - Detector Physics and Performance

**Session** | **Location:** remote-only | **Conveners:** Francisco Ignacio Garcia Fuentes, Florian Maximilian Brunbauer

#### 15:00–15:20 Test-Beam Results on Small-pad Micromegas

**Speaker**

Marco Sessa

#### 15:20–15:40 Accelerated ageing test of resistive bulk-micromegas

**Speakers**

Givi Sekhniaidze, Paolo Iengo

#### 15:40–16:00

### Final preparations for the MIGDAL experiment at the NILE facility at RAL

**Speaker**

Pawel Majewski

#### 16:00–16:20 Status of GADGET II: A TPC for decay spectroscopy at FRIB

**Speaker**

Ruchi Mahajan

#### 16:20–16:40 Coffee break

#### 16:40–17:00 Results from the EU ATTRACT/SMART project

**Speaker**

Vladimir Peskov

#### 17:00–17:20

### Studies of electroluminescence in hydrocarbons enriched He/CF<sub>4</sub> gas mixtures

**Speaker**

Cristina Bernardes Monteiro

#### 17:20–17:40

### Cryogenic RWELL: observation of stable large avalanche multiplication in argon

**Speaker**

Andrea Tesi

17:40
