

Second EuCAPT Annual Symposium

Monday, 23 May 2022

Late Universe - Online only (14:00 - 16:45)

-Conveners: Olga Mena

time	[id] title	presenter
14:00	[24] Dark Energy	ZUMALACÁRREGUI, Miguel
14:30	[25] Lensing	CHISARI, Elisa
15:00	break	
15:15	[26] Astro-statistics	LANUSSE, François
15:45	[38] Lightning Talks (6 x 5 min)	BENISTY, David LUCCA, Matteo JOSEPH, Melissa ARENDSE, Nikki CASTELLO, Sveva QIN, Wenzer
	- [1] Dark energy interactions near the Galactic Center	BENISTY, David
	- [2] Hints of dark matter-neutrino interactions in Lyman alpha data	LUCCA, MATTEO
	- [3] A Step in Understanding the Hubble Tension	JOSEPH, Melissa
	- [4] Inferring the Hubble constant from gravitationally lensed supernovae	ARENDSE, Nikki
	- [5] Rescuing constraints on modified gravity through gravitational redshift	CASTELLO, Sveva
	- [6] An Effective Field Theory of 21 cm Radiation with Redshift Space Distortions	QIN, Wenzer
16:15	[39] Discussion
