

31st International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: **101**

Type: **Talk**

NP searches in an EFT context

Tuesday 18 July 2023 10:00 (30 minutes)

This talk will present an experimental overview of searches for New Physics performed through the interpretation of several results in Effective Field Theory frameworks. The emphasis will be on the most recent publications by the ATLAS and CMS collaborations, including Standard Model, Top, single Higgs and double Higgs analyses.
