

31st International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: 152

Type: **Talk**

Searches and tests for lepton-flavour-violating processes at CMS

Wednesday, 19 July 2023 09:15 (15 minutes)

New physics can manifest itself via lepton-flavour-violating processes in LHC proton-proton collisions. This talk summarizes the most recent searches for lepton-flavour-violating processes and tests of lepton flavour universality with the CMS detector, using proton-proton collisions at a centre-of-mass energy of 13 TeV.
