

31st International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: 191

Type: **Talk**

Recent quarkonium results at Belle II

Tuesday 18 July 2023 17:15 (15 minutes)

Belle II offers unique possibilities for the discovery and interpretation of exotic multi-quark states to probe the fundamentals of QCD. This talk presents recent results on searches for the hidden bottom transition between $\Upsilon(10750)$ and χ_{bJ} , and measurements of the energy dependence of the $e^+e^- \rightarrow B^{(*)}\bar{B}^{(*)}$ cross section.
