31st International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: 191 Type: Talk

Recent quarkonium results at Belle II

Tuesday 18 July 2023 17:15 (15 minutes)

Belle II offers unique possibilities for the discovery and interpretation of exotic multiquark states to probe the fundamentals of QCD. This talk presents recent results on searches for the hidden bottom transition between $\Upsilon(10750)$ and χ_{bJ} , and measurements of the energy dependence of the $e^+e^- \to B^{(*)}\bar{B}^{(*)}$ cross section.
