

31st International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: 231

Type: **Talk**

Status of, and first data from, the milliQan Run 3 Detector

Tuesday 18 July 2023 17:00 (15 minutes)

We will present the operational status of the milliQan Run 3 detector, which was installed during the 2022-3 YETS and is presently being commissioned. We will available initial results from data obtained with Run 3 LHC Collisions.
